### *Our Story* GREAT BRITISH HERITAGE

Appropriately founded in the home of bathing, Roper Rhodes was established in 1979 in the beautiful city of Bath, which we still call our home today. It's been over 40 years since then and we have grown and changed along with the city, and our passion for design, ingenuity and creativity has never been stronger.

Our products are made with consideration and stringently tested to ensure uncompromising performance and durability. Such is the confidence in our designs that our ranges are covered by extensive guarantees for your peace of mind. For example you can relax knowing you will receive 20 years guarantee against defects in manufacture on sanitaryware and 10 years on our furniture.

We have a rich history but are also obsessed with product development; constantly innovating, with each new product launch seen as an opportunity to improve the lives of our customers. We work on the basis that every aspect of the life of our products must be considered, challenged and designed to be better. This approach has resulted in us having a market leading product innovation vitality score.

6

For over forty years, we at Roper Rhodes have striven for bathroom perfection. Our dedicated team has grown from just one man to a group of people obsessed with all the little details that go into making your dream bathroom.

At every step of the way the customer is at the forefront of our minds. Starting with our product designers, who are always in search of how they can improve the bathroom experience. Push-button showers and contactless flushing are just some of the innovations to come from our brilliant team of designers.

Once a product has been made, it finds itself within our impressive 200,000 Sq ft Distribution Centre on the outskirts of Bristol. Here we run a twenty-four-hour operation to guarantee you the best delivery and service we can.

We believe that beautiful bathrooms come from our people, who's inspiration and dedication have made Roper Rhodes what it is today.

### Be inspired ... HOW TO GET THE SOHO HOUSE LOOK with Zoe Jones

### BE INSPIRED

Our in-house stylist Zoe gives you her tips on how to achieve the Soho House look in your bathroom.

Soho House style is all about creating a luxurious and modern space with a vintage twist. We've chosen timeless elements such as our Elle bevelled mirror and luxurious Hampton Washstand, and paired these with contemporary accessories and leafy foliage to keep it feeling fresh.

'Why not try bringing together contrasting textures with rustic woods, brass accessories, or ceramic tiles in modern designs?'

Modern Furniture PURSUIT

A versatile range in contemporary finishes to add a designer edge to your bathroom.

Modern Furniture PURSUIT

The contemporary textured finishes lend it a truly sophisticated edge, choose from alpine or charcoal elm or opt for smooth gloss white and gloss grey. Pursuit is extremely flexible too – choose the 600mm basin unit or use two 600mm units side by side, united by a long solid surface worktop to create a luxurious statement piece.

- Your choice of basin to customise your look
- Spacious internal drawers in a beech finish
- Additional beech storage drawer dividers are available to keep you organised
- Sleek, integrated chrome handle

- 1200 PURSUIT UNIT Shown with cell counter top basin, see pages 83 for all other options

All Roper Rhodes closed coupled WC cisterns are now supplied with air gap technology, they also benefit for a WRAS approved inlet valve and have a built in silencer to reduce water fill noise levels

### **BLACK & BRASS COVER CAPS**

For a sleek and stylish finish to your bathroom, our Archetype, Paradigm and Note ranges now include the option to upgrade to black or brass cover caps & WC floor fixing. Complementing black and brass flush buttons are also available.

### 20 YEAR GUARANTEE

At Roper Rhodes, we pride ourselves in offering high quality products that are built to last, even in the hectic and high traffic space that is the bathroom. That's why all of our basins and WC's benefit from a 20 year guarantee. We provide a 10 year guarantee on seats and 5 years on cistern fittings.

### CLOSE COUPLED SENSOR FLUSH KITS

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 2" base.

If upgrading an existing Roper Rhodes cistern the following ranges will require flush button kit TR9031 with valve TR9033 to operate

- Accent
- Cover
- Geo
- Note

Minerva cisterns only require flush button kit TR9031

Note:Archetype and Paradigm WCs are currently incompatible with the flush sensor kits.

### Meet the tap & shower DESIGNERS

As specialists in what they do, our product designers are constantly looking for new ways to improve the showering experience. With an extensive range of contemporary designs and functions, we've developed a simple guide to help you choose the right one and get the most of your shower.

When it comes to taps, our wide range of styles mean you'll always find one to suit your taste. Why not take your design one step further and opt for coordinating taps and showers?

## Discover ROPER RHODES TAPS

Explore our expansive collection of taps and find the perfect finishing touch for your bathroom. We've struck the perfect balance between design and functionality to create a range of taps that not only look great but perform brilliantly too. There is something to suit any bathroom style, from sleekly contemporary to charmingly traditional.

Our selection covers every style and taste, from modern wall mounted mixers, to timeless basin taps. With chrome, black and brass finishes available to create your perfect look.

### AS EASY AS 1,2,3...

Our comprehensive collection of taps provides you with a tap solution, whatever your space. Simply choose a design fit for 1, 2 or 3 basin holes, and let us help you achieve your bathroom aspirations.

#### Making the perfect choice

#### LOW PRESSURE 1

Suitable for all plumbing systems including conventional 0.1bar pressure\* and above

## LOW PRESSURE 2

Suitable for all plumbing systems including conventional gravity fed ones with a minimum gravity fed ones with a minimum 0.2bar pressure\* and above

LEVER ACTION The single lever action makes it extremely easy and practical to use

SWIVEL AERATOR Allows the position of the running water to be moved

#### QUARTER TURN CERAMIC TECHNOLOGY

Quarter turn taps only require a 90° turn of the handle to move from fully open to closed

TEMPERATURE CONTROL

Designed to control the temperature of mixed water by restricting handle movement to avoid risk of scalding

ECO2

Compatible with our optional water and energy saving shower flow regulators

ECO1

Compatible with our optional water and energy saving basin tap flow regulators

\*Bar pressure is a unit of measurement for pressure 0.1bar is equal to a metre head of water. In plumbing terms this means that for a gravity fed system, if the base height of your water tank is 1m above a tap, then you will have 0.1bar of pressure at the tap

#### MEDIUM PRESSURE

Suitable for all plumbing systems including conventional gravity fed or modern pressurised ones with a minimum 0.5bar pressure\* and above

Requires a minimum pressure of 1.0bar or above and are more suitable for modern pressurised plumbing systems

#### SWIVEL SPOUT

Allows the spout to be moved from side to side

#### CERAMIC TECHNOLOGY

A smooth, easy to use action giving accurate flow control

#### UNDER SPOUT DIVERTER

Located underneath the spout, turn to divert the water flow to use the shower or fill the bath. Easier to clean

# Tap Options BATH FILLER OPTIONS

If you like the idea of keeping the rim of your bath clear then you could opt to fill your bath using a manual mixer valve. There are many designs which complement our basin mixers. Pair the manual mixer valve with a wall mounted bath spout or Smartflow bath filler. A diverter mixer valve will give the additional option of having a bath mounted shower handset, great for rinsing hair or cleaning the bath.

Manual mixer and diverter valves are available with the following tap ranges:

- Elate see page 167 for details
- Sign see page 168 for details
- Sync see page 169 for details
- Code see page 170 for details
- Hydra see page 170 for details

## EXPOSED SHOWER VALVES

Bring the charm of traditional brassware into your home. Our timeless collection of surface mounted showers pair the period style you love with our tried and tested engineering, giving you that vintage feel with the comfort that your shower will last for years to come.

## THERMOSTATIC SHOWER VALVES

Our signature valve, designed to provide precise temperature control as well as peace of mind in the shower. These intuitive valves will automatically respond if there is a sudden drop in water temperature to keep the temperature constant, and if the hot or cold water fails the valve will automatically shut off preventing scalding.

### PUSH BUTTON SHOWER VALVES

Making the everyday task luxurious. Swiss engineering combines with intelligent push button technology to offer you effortlessly luxurious showering, all at the touch of a button. Available in an expansive range of styles and configurations.

# PUSH BUTTON VALVES

Push button shower valves feature easy to use controls, they benefit from instant start/stop activation for up to 3 outlets. Their concealed styling offer a stunning minimalist design solution. The round handle controls the temperature (which you can set and leave, ensuring the perfect temperature each time you shower). The buttons control the chosen outlets. Push button valves are only available within the Event-click round collection, for full details on the Event-click round collection see pages 184-191.

# The finishing touch BATH FILLERS

With a Smartflow bath filler, water runs into your bath through the filler rather than a traditional bath mixer tap. Mounted on the inside of the bath, the Smartflow acts as a combined filler and overflow and comes with a click waste. It can be used with a manual mixer valve as a simple bath filler, or connect it to a diverter valve to control both bath and shower outlets.

GUARANTEE Smartflow bath fillers benefit from a 10 year guarantee

# LED LIGHTING

Energy efficient LEDs provide high quality and bright illumination whilst being 80% more efficient than older incandescent lights

#### VARIABLE WARM TO COOL LEDs & DIMMABLE

Flexibility to adjust the LED warmth and brightness from an invigorating daylight white (6000K) to a relaxing warm white (2700K)

#### HEATED DEMISTER

Maintain a steam-free cabinet reflection in the bathroom with an integrated heated demister pad

WIRELESS

CHARGING

CHARGING SOCKET Conveniently positioned, this charging socket keeps your electric toothbrush or shaver fully charged

RECESSED OR RECESSIBLE

Perfect for charging your phone/device when you're busy getting ready

PUSH TO OPEN DOORS Intuitive push to open mirrored cabinet doors

MIRROR DOORS Double sided mirrored glass means the cabinet mirror can be used when open or closed

# $(((\circ)))$

#### INFRARED SENSOR

Easy to use, an infrared sensor allows you to control the mirror with just the wave of your hand without touching the cabinet

# TWO-PIN

Recessing the cabinet within the wall is a great way to conceal your bathroom accessories whilst maintaining a clean and clutter free bathroom

## USB SOCKET

Easily accessed USB socket keeps your devices fully charged

### SOFT CLOSE DOORS

Most of our cabinets feature soft close doors to ensure quiet and controlled closure of the doors

# DOUBLE SIDED

#### IP44 RATED

Cabinets indicated with this symbol are IP44 rated, making them suitable for use within zone 2 of the bathroom
