

NEFF APPLIANCE RANGE BROCHURE

Cooking inspires people. People inspire us.

INTRODUCTION TO NEFF

Cooking inspires people. People inspire us.

At NEFF we believe that the kitchen is the heart of every home. A place to eat, meet and get creative with your cooking. With an extensive range of innovative appliances, we're constantly working to meet the demands of every lifestyle. From our unique Slide&Hide[®] disappearing oven door to our revolutions in steam cooking, a NEFF kitchen is equipped for even the trickiest dishes.

HOME CONNECT

Enhance your cooking with NEFF and Home Connect

Enhance your kitchen experience, set up and control your appliances with ease, personalise the display and responses to your liking. Home Connect helps you use your appliance to its maximum potential, receiving helpful tips and hints via your phone or tablet, including when your oven has reached temperature.

Home Connect

COMMUNICATE WITH YOUR OVEN

START COOKING WITH THE APP AND GET NOTIFIED WHEN DINNER IS READY

For many Cookaholics, talking to their oven comes naturally. With your hands full kneading dough and rolling it out for tagliatelle, it's more than handy to start the oven and select the relevant cooking function hands-free via voice control. Our oven can talk back too: with Home Connect you can expect to receive a notification directly to your smartphone when dinner is ready. So you can focus on entertaining your quests. Being able to see all heating modes with a simple tap means you can pick the right method to suit your recipe. You can even create a favourite mode for a fast short cut, brilliant for those mid-week dinners when time is of the essence

A WORLD OF INSPIRATION

With the Home Connect app, you can manage and set up your appliance routines that support you in the kitchen. Furthermore, the app also contains a bank of inspiring ideas and recipes tailored for any Cookaholic that loves original and fresh cooking.

just ask alexa

WAKE UP AND SMELL THE COFFEE

0

YOUR FAVOURITE COFFEE AND MUSIC ARE WAITING FOR YOU IN THE KITCHEN

Just say the word and your favourite coffee will be ready in no time. If you integrate voice control into your connected kitchen, you can add an automatically prepared coffee to your morning routine and order the coffee from another room. A voice command is all it takes to get the day started with motivational music while sipping your espresso or flat white. On the subject of coffee, don't forget to use your coffee grounds to grow mushrooms - delicious when grilled.

EXPAND YOUR COOKING REPERTOIRE

OUR PARTNERSHIP WITH

IT'S SUPER COOL TO CONNECT

OUR WIFI-CONNECTED FRIDGE IS READY WHEN YOU ARE

Maybe you're at the supermarket doing a big shop and need to pre-cool the fridge so your groceries are chilled quicker. Or you've bought drinks for a party and need them to be cooled on time. With Super Cooling, you can get your fridge down to temperature before you get home – a few taps in the app is all it takes.

4 neff-home.com/uk/

KEEP YOUR HANDS ON THE COOKING

LET THE HOOD JUDGE THE **EXTRACTION YOU NEED**

When you and your hob are causing a steam storm in the kitchen, our Automatic Hood springs to life as the two appliances are connected via Wi-Fi. The hood automatically adapts the extraction rate to the cooking aromas and vapours it detects. If desired, you can even adjust the extraction via the Home Connect app or using the stylish TwistPadFire® dial on the cooktop – there's a control option to suit any mood.

KEEP TABS

Keep track of how many dishwasher tabs you've used and when the rinse aid or salt are getting low. Home Connect will let you know how many vashes you have left. And you can set this to your liking, so plenty of time to order more before running drv!

ONE TAP AND THE DISHWASHER DOES THE REST

A VOICE COMMAND OR A TAP ON YOUR SMARTPHONE IS ALL IT TAKES

It's so much easier to set up your dishwasher with Home Connect, as you'll have immediate access to the settings with just a tap, which means you can set the hard water levels without bending over. To keep your machine in good working order we'll even suggest when to run a machine clean programme, monitor the number of cycles, and even help with the shopping using smart reorder via Amazon Alexa

INTRODUCING THE NEW ENERGY LABEL, EFFECTIVE 1ST MARCH 2021

NEWM

Technological development over the past few years has resulted in a higher concentration of products that carry labels with a value of A+ or better. Consequently, the label has not been fulfilling its original function as an aid for making purchasing decisions as well as it formerly did. Other basic conditions like user behaviour have also changed. That's why it's time to adapt the existing energy label. The first home appliances to have the new label will be washing machines, washer-dryers, dishwashers, cooling appliances and wine coolers. As of 1 March 2021, these appliances must show the new label when sold in shops, online, etc. As the new label has to be added to these appliances before this date, we would like to provide you now with some information on the future energy label.

ENERG¹ **B**² XYZ kWh / 100 3 \$ 5 XY,ZL () () (xx ()))) X:YZ

SAMPLE OF NEW ENERGY LABEL FOR **DISHWASHERS:**

- 1. QR code
- 2. Energy efficiency class **3.** Energy consumption in kWh/100 operating cycles (in Eco programme)
- 4. Number of standard place settings for the Eco programme
- 5. Water consumption in litres/ operating cycle (in Eco programme)
- 6. Duration of the Eco programme
- 7. Noise emissions expressed in dB(A) re 1pW and noise emission class

The energy efficiency class for dishwashers continues to be based on the Eco programme. However, the test standard has been changed. For example cups, pots and plastic utensils will be used to determine cleaning and drying performance to better reflect actual usage behaviour. What is new is the specification of the duration of the Eco programme. This programme is especially eco-friendly, is ideal for normally soiled dishes and is the most efficient programme n the combination of energy and water consumption. As with washing machines and washer-dryers, energy consumption will be based on 100 cleaning cycles.

WASHER DRYERS:

1. OR Code

- 2. Energy efficiency class*
- (complete operating cycle)
- 3. Energy efficiency class* (wash cycle)
- 4. Weighted energy consumption* in kWh/100
- cycles (complete operating cycle**) 5. Weighted energy consumption*
- in kWh/100 cycles (wash cycle) 6. Maximum load capacity
- (complete operating cycle**)
- 7. Maximum load capacity (wash cycle)
- 8. Weighted water consumption* in litres/
- operating cycle (complete operating cycle**) 9. Weighted water consumption* in litres/
- operating cycle (wash cycle) **10.** Programme duration (complete operating
- cycle)
- **11.** Duration of Eco 40-60 programme
- **12.** Spin efficiency class

WINE CABINETS:

2. Energy efficiency class

that can be stored

(measured under new standard

4. Number of standard wine bottles

5. Noise emissions expressed in dB(A)

re 1 pW and noise emission class

1. QR code

conditions)

13. Noise emissions during spin cycle expressed in dB(A) re 1 pW and noise emission class

The procedure for determining the energy class is now more comprehensive. It takes into account the type of appliance, its operating principle, the room's temperature and the number and size of storage compartments. The rest of the elements on the new energy label basically remain the same. Energy consumption continues to be specified in kWh as an annual consumption (annum). The label also provides information on the total volume of all refrigerator compartments and all freezer compartments, if any, and on noise emissions and the noise emission class.

label for washing machines is the change in the test programme to which all label values refer. Like, for example, the energy consumption which will be based on 100 wash cycles. The new Eco 40-60* programme is suitable for cleaning normally soiled fabrics made of cotton, linen or mixed fibres which, based on their care symbol, are washable at 40°C or 60°C. The fabrics named may be combined in this wash cycle. The Eco 40-60 programme is the most efficient programme in the combination of energy and water consumption

One of the major changes in the energy

* Eco 40-60

In order to achieve optimal energy efficiency, an optimal washing temperature is defined for this programme. This temperature can't be changed by the customer. The actual washing temperature is specified in the user manual and, depending on the load size, may deviate from the selected washing temperature for reasons of saving energy. Washing performance complies with legal requirements. ** Values apply to quarter, half and full loads

WASHING MACHINES:

- 1. QR Code
- 2. Energy efficiency class** 3. Weighted energy consumption** in kWh/100 operating cycles (in Eco 40-60 programme)
- 4. Maximum load capacity
- 5. Duration of Eco 40-60 programme
- 6. Weighted water consumption** in litres/operating cycle (in Eco 40-60 programme)
- 7. Spin efficiency class** 8. Noise emissions during spin cycle
- expressed in dB(A) re 1 pW and noise emission class

3. Energy consumption in kWh/annum

XYZ kWh/annum

XYZ (XY08)))

B

C

The outgoing energy label for washer dryers has not been revised since it was first introduced in 1996, which is why it still shows the original scale of A to G. Because washer dryers are more frequently used just for washing, the label is divided into two parts. The left side of the label specifies the values for the complete wash and dry operating cycle. The right side of the label shows the values for the wash cycle alone. The values to be specified on this label for the wash cycle alone reflect the changes in mandatory information for the new washing machine label.

* Values apply to washing quarter, half and full loads and washing and drying half and full loads. ** Wash and dry.

FRIDGE AND FREEZER **APPLIANCES:**

- 1. OR Code
- **2.** Energy efficiency class
- **3.** Energy consumption in kWh/annum (measured under new standard conditions)
- 4. Total volume of all freezer compartments
- **5.** Total volume of all refrigerator compartments
- **6.** Noise emissions expressed in dB(A) re 1 pW and noise emission class

As with the other labels, the scale of energy efficiency classes is also changing for the labels of wine cabinets. Furthermore, a QR code and the noise emission classes are also given here. As before, the annual energy consumption and the number of standard wine bottles to be stored are still shown.

AN OVEN FOR EVERY COOKAHOLIC

Our ovens are designed by cooks, for cooks. We're proud of our strong aesthetic values and our ovens look as great on the outside as they work on the inside. But what makes NEFF stand out is our commitment to providing a better cooking experience.

At NEFF, we appreciate that every customer has a unique set of requirements. We've done our best to make our oven range as varied as possible to suit every kitchen. There are three types of ovens in the NEFF collection, single, compact and double ovens.

SINGLE OVENS

Your versatile kitchen companion

NEFF's iconic CircoTherm[®] hot air system is fitted as standard on all single ovens. It's then up to you to choose from the other features to suit your cooking style. Use your voice with Home Connect, let our Pyrolytic Self-Cleaning models make cleaning up after your creations a breeze. And if you want the benefits that steam offers, choose a model with Vario Steam®, Full Steam or Added Steam.

Featured model: B58VT68H0B N90 Slide&Hide[®] Single Pyrolytic Oven with Home Connect

THE BEAUTY OF A MICROWAVE COMBINATION MODEL IS THAT IT CAN MIMIC ALL THE BENEFITS OF A TRADITIONAL OVEN IN A FRACTION OF THE TIME.

DOUBLE OVENS

DOUBLE THE SPACE, DOUBLE THE COOKING

With the convenience of two oven cavities, our built-in Double Ovens provide any Cookaholic with plenty of cooking space without impacting on kitchen design. Featuring NEFF's CircoTherm® technology in the main oven and Pyrolytic Self-Cleaning in both, it's possible to cook different dishes on multiple levels without any intermingling of flavours or mess to clean up.

> Featured model U2ACM7HN0B N50 Pyrolytic Double Oven

Featured model:

COMPACT OVENS

SEAMLESS COMBINATION MEETS ADVENTUROUS COOKING

Intended to complement our unique Slide&Hide® Oven range, our innovative 45cm Compact Ovens provide additional cavity space whilst offering a premium and seamless kitchen design. Use our SeamlessCombination® mounting kits to create your very own stylish 'mix and match' appliance wall. Our SeamlessCombination® mounting kits are only available within the N90 and N70 Collections.

Designed to offer the ultimate flexibility, our compact appliances provide all of the innovative features you'd expect from a NEFF Single Oven. With CircoTherm® as a standard across most Compact Ovens, multiple dishes can be cooked simultaneously without any intermingling of flavours. Plus, selected models offer our innovative Pyrolytic Self-Cleaning function to make oven cleaning a chore of the past. If you're looking to push the boundaries with creative cooking our Compact Full Steam and Compact Microwave Ovens is a must have appliance for your kitchen. Pair one of our Compact Ovens with a Single Slide&Hide® Oven to create a more versatile and larger cooking capacity than a standard Double Oven offers. Head to page 18 to discover how our small ovens have big ideas.

BUILT-UNDER DOUBLE OVENS

Our built-under Double Ovens remain a popular choice for cooks who have limited space with unlimited ideas. Featuring a main oven with our unique CircoTherm[®] hot air technology, it's possible to cook different dishes across multiple levels and everything will come out tasting like it should. Our builtunder Double Ovens are ideal for cooks who need the flexibility of a double oven, but have limited space in their kitchen.

B1ACE4HN0B N50 Built-Under Double Oven

Choosing the right appliance to complement your kitchen and lifestyle can be challenging. To help you select the perfect kitchen companion, we've introduced easy-to-follow Collections based on product features, technology, design and simplicity. There's a Collection to suit everyone.*

DESIGN COORDINATION

Achieving a premium, seamless kitchen has never been easier

At NEFF, we appreciate that every customer has a unique set of requirements when it comes to designing the kitchen of their dreams. Choosing the right appliances to reflect your own cooking and design style is often overwhelming. That's why NEFF is on hand to help you achieve that all important premium look by grouping products across all categories into 3 unique Collections.

Defined by the unique Slide&Hide[®] Oven with disappearing door, our N90, N70 and N50 Collections each offer a different design and range of features, so you can create a seamless kitchen best suited to your individual needs.

e Nasil

Offering a sleek and stylish design with a range of innovative features and functions, our N70 collection is perfect for those who love to experiment in the kitchen.

Our most premium collection of appliances are designed to enhance the cooking process for any Cookaholic. Offering a choice of 2 display designs with a Full Touch or Shift Control operation, the N90 Collection is equipped with every feature and function that a creative chef desires. To ensure you achieve a seamless kitchen, make sure you mix and match N90 appliances that have the same control display.

N 51.

Our newest product collection gives passionate cooks the tools they need to get creative in the kitchen. Designed with a more traditional dial control operation, our N50 Slide&Hide[®] Oven Collection offers all the features and functions to inspire any budding chef.

SLIDE&HIDE®

Get closer to your cooking

We create appliances that are tailored to modern lifestyles and requirements. Our unique Slide&Hide[®] door fits smoothly under the oven cavity to give plenty of room, as well as better access to the oven's interior – ensuring an easy and flexible approach to cooking. Recognising our customers' need for maximum cooking space, our unique full-sized single ovens are now even larger with a 71-litre capacity.

Slide&Hide[®] Single Oven

FEATURE AVAILABLE WITHIN N90 AND N70 MODELS

NOTHING GETS IN THE WAY OF COOKING, NOT EVEN THE DOOR.

Selected Slide&Hide® models are now available with a choice of:

<u> Space saving – Slide the door away</u> to maximise space in small kitchens

No and

Accessible – Baste, taste and

cooking proces

monitor your dishes throughout the

A DECK OF STREET

Unique - Be the envy of all your dinner quests with the only oven to feature a disappearing door.

CIRCO THERM®

Simultaneous cooking on multiple levels

With CircoTherm® you can cook, roast and bake completely different dishes on all levels and everything will come out tasting like it's supposed to. With no intermingling of flavours, the roast meat will taste like roast meat, and the muffins will taste like muffins. With flat items like cookies you can bake them using all four levels.

COOK A THREE-COURSE MEAL IN-ONE-GO WITHOUT THE INTERMINGLING OF FLAVOURS.

CircoTherm®

CircoTherm[®] works by drawing air in from the oven via a powerful stainless steel fan. It then heats up the air and forces it right back into the oven cavity through strategically placed ducts in the rear wall. The desired temperature is achieved quicker and more evenly than in a conventional oven, saving time and energy as little or no preheating is required. There is also a new Power Boost function, available within our 4D CircoTherm[®] system, to speed things up even more when cooking for short periods of time - just put the food in and start the oven.

The hot air is focused directly onto the food being cooked, wrapping the shelves to ensure the surfaces of baked and roasted items seal quickly. This keeps moisture in and prevents flavour transfer, so you can cook an entire three-course meal using all levels of the oven at the same time.

Not in the mood for roast pork raspberry fish muffins? CircoTherm® isn't either.

3D CircoTherm®

Standard on all N50 Single and Double Ovens, our original and renowned 3D CircoTherm® system combines specially designed fan and back panel to deliver even cooking & baking on up to three levels – perfect results every time with no intermingling of flavours.

4D CircoTherm[®]

Offering all the benefits of our original 3D system, 4D CircoTherm® combines a balanced stainless steel fan with a specially designed back panel and state-of-the-art electronic motor for optimum multi-level results. The electronic motor automatically switches between clockwise and anti-clockwise rotation every few minutes to deliver even better heat distribution throughout the cavity, facilitating cooking & baking on up to 4 levels simultaneously. 4D CircoTherm[®] is a more efficient and energy saving alternative to our 3D system and is standard on all N70 & N90 Single Ovens.

PYROLYTIC SELF-CLEANING

and the states and the

The oven that almost cleans itself

When you activate the Pyrolytic Self-Cleaning cycle, high temperatures of up to 485°C turn baking, roasting and grilling spatter and residue into dust. Once the oven has cooled you can simply wipe it away with a cloth. That's all there is to it!

MAKE OVEN CLEANING A THING OF THE PAST.

You can choose from three cleaning settings:

- Light residue approx. 1 hour, 15 minutes
- Medium residue approx.
- 1 hour, 30 minutes Intensive cleaning approx.
- 2 hours

PYROLYTIC SELF-CLEANING

As a safety measure, the oven door locks automatically until the oven has cooled to an acceptable level. The whole process only takes 1-2 hours depending on the degree of soiling (there are three programme options).

What's more, all of our pyrolytic ovens also come with our efficient EasyClean[®] cleaning aid. For a lightly soiled oven, when a pyrolytic cycle is not required, place approximately 400ml of water and a drop of washing-up liquid in the base pan and then select the EasyClean® programme. It softens baked-on residue so you can just wipe it down, for fast and uncomplicated oven cleaning.

SLIDE&HIDE[®] WITH PYROLYTIC SELF-CLEANING

With the stylish and innovative Slide&Hide[®] Single Oven now available with Pyrolytic Self-Cleaning, cleaning up those little spills won't eat into your dining time. From bubbled-over cheese to sizzling joints of meat, spatter and spillages are simply turned to dust, allowing you to quickly wipe away any residue once the oven has cooled.

ECO CLEAN®

In non-pyrolytic models we have the EcoClean® feature – a microfine ceramic bead coating on the oven's interior back or top, sides and back, depending on the model. It has a very large surface area, making it extremely absorbent. This highly efficient coating lasts for the entire lifetime of the oven and works once the oven reaches 140°C. Depending on how often you use your oven, there is a special EcoClean[®] cleaning program to get rid of accumulated soiling which may only be necessary 2-3 times a year. This uses a temperature of 275°C to remove burnt-on food without chemical cleaners.

BASE CLEAN

All ovens with the EcoClean® coating also have BaseClean to help clean the base of the oven - it softens burnt-on food with warm water. After the programme has finished you just have to wipe the base with a damp cloth.

NOW ADD STEAM INTO THE MIX

A FULLY FUNCTIONING OVEN, **MICROWAVE AND STEAMER IN ONE.**

Partner your N50 Slide&Hide® Single Oven with our N50 Compact Microwave Combination Steam Oven to create a seamless design with endless cooking possibilities. Offering just what it says in the name, you can use our N50 Compact Microwave Combination Oven with steam to combine hot air and steam to microwave cooking in one single appliance.

As well as retaining vitamin and mineral content in food, steam cooking preserves flavours, ensuring that less salt additives are needed and a healthier dish is served. Whilst the internal microwave element enables food to be cooked quickly and dishes which benefit from oven baking/ roasting are left beautifully fluffy on the inside and crisp on the outside.

WOW WITH SLIDE&HIDE®

Be the envy of all your dinner party guests with the N50 Slide&Hide® Single Pyrolytic Oven.

Our unique Slide&Hide[®] N50 Single Oven frees up kitchen space without sacrificing premium design. Featuring wider chrome trims with traditional control dials and an electronic display on selected models, our N50 ovens will make a style statement in any kitchen.

Full of innovative features, you can expect 3D CircoTherm[®] with ClipRail Telescopic Rails as a standard and make oven cleaning a chore of the past with the invaluable Pyrolytic Self-Cleaning function. Furthermore and unique to the N50 Collection only, our built-in Single Point Meat Probe monitors the core temperature of your joint and automatically switches the oven off when it's ready to be served. Ensuring that a succulent roast is always achieved has never been easier.

SINGLE POINT MEAT PROBE

HOME CONNECT

Bake and roast from anywhere

Manage our Wi-Fi connected N 90 and N 50 oven from anywhere you can take your smartphone start roasting from afar and get a notification when dinner is ready. You can also speak to your oven via voice command and keep your messy hands on the cooking only.

> Our innovative Home Connect app also provides you with a wealth of experimental recipes to ensure that you have enough inspiration to get creative in the kitchen and get the best out of your oven.

HOME CONNECT IS COMPATIBLE WITH AMAZON ALEXA AND GOOGLE ASSISTANT

Home Connect

Innovative steam assistance

Vario Steam[®] gives dishes just the right amount of moisture by adding steam at three intensity levels, for baking, roasting or just heating up.

Vario Steam[®] works by adding the desired amount of steam, through ducts in the back plate, during the CircoTherm[®], top and bottom heat, bread baking and grilling modes. There are three pre set levels to provide a moist cooking environment and help achieve beautiful food that is perfectly succulent and tender. Dishes retain their colour, flavour and won't dry out during the cooking process.

CRISP ON THE OUTSIDE, SUCCULENT ON THE INSIDE, DELICIOUS ALL ROUND.

A fully functioning oven and steamer in one

Perfectly concealed

The water container is easy to remove and refill.

Our Full Steam ovens combine all the heating modes of a fullfeatured oven with those of a steam cooker, in one single appliance. Ideal for fish and vegetables, nutrients are retained and food is left beautifully flavoursome. It's easy to operate and also simple to refill the concealed one litre water container – press a button to open the front panel, remove the container, fill it and you're ready to steam ahead.

alexa

New for N 50

Added Steam offers two preset levels of steam for combination with traditional cooking methods to achieve dishes with beautiful textures and flavours.

Comfortable and flexible access to your cooking

Lift hot dishes safely and comfortably out of the oven using our ComfortFlex Telescopic Rails, available within the N90 Collection. With the new design the rails don't get in the way – you can grasp the tray or dish from the side for more safety when handling.

Offering a similar benefit of allowing food to be pulled clear of the oven for optimum tasting and basting, our ClipRail Telescopic Rails feature a clip to release functionality and are available within our N50 Collection. You can also position our ClipRail Telescopic Rails on any level in the oven.

Even the best sometimes need a little help

Take the quesswork out of cooking joints of meat with our clever built-in temperature probe feature. Available within the N90 Collection, the Multi Point Temperature Probe measures the joint's heat at three points to ensure it's perfectly cooked throughout. Offered within the N50 Collection is our Single Point Meat Probe that monitors the core temperature of your joint and automatically switches the oven off when it's ready to be served.

RAIL SYSTEMS

NEFF LIGHT®

A unique feature by NEFF, which allows food to always be visible without opening the oven door. Most ovens have an internal lighting system, but when cooking, shelves and pans can reduce the effectiveness of the light. NEFFLight[®] brightly illuminates even the farthest corner of the oven using LED bulbs. A special prism in the oven door distributes the light evenly at all levels, for a good view without dazzle.

COMPACT OVENS WITH MICROWAVE **& MICROWAVE COMBINATION OVENS**

Delicious results in rapid time

Designed to offer the ultimate flexibility, a compact oven with microwave functionality combines the benefits of conventional oven cooking and microwave cooking. Food is cooked quickly and dishes which benefit from oven baking & roasting are left beautifully fluffy on the inside and crisp on the outside.

OVENS WITH INTEGRAL MICROWAVE¹

Want an oven that offers more versatility for creative cooking? NEFF compact ovens with microwave give you all the benefits of a traditional single oven, but with the added power of a microwave. This combination of traditional oven-led cooking supported by low-medium power microwave (max. 360W) lets you speed up the cooking process while still delivering the flavours and results you'd expect from your NEFF oven.

In addition, you can also team the compact oven with microwave together with a traditional single NEFF oven, creating a highly versatile alternative to a double oven.

MICROWAVE COMBINATION OVENS¹

Wish your microwave gave crisp and brown results like your oven? That's exactly what you can get with a NEFF microwave combination oven. The combination of microwave (max. 600W) supported by hot air or grill functions enhance your cooking for golden and delicious meals. It's the speed you'd expect from a microwave but with the flavour and appearance you get from an oven or grill.

FAST FOOD NEVER LOOKED, OR TASTED, SO GOOD

Invaluable in any Cookaholic's kitchen, our N90, N70 and N50 Collection Compact Microwave Ovens feature an integral microwave designed to cook your favourite dishes in a fraction of the time. Combined with the option of conventional oven cooking, our Compact Microwave Ovens offer the ultimate versatility to any meal. Also available within all collections is our range of Compact Full Steam Ovens to offer you a healthier approach to cooking with a more tasty result. All Compact Ovens have been designed to perfectly coordinate with our unique Slide&Hide[®] Single Ovens.

WARMING DRAWERS

WARMING DRAWERS EXPLAINED...

A warming drawer is a must for the serious cook. They're useful and versatile and help with the preparation and timing of meals. Easily accessible on smooth telescopic runners, they'll not only warm plates before serving up, but keep pre-cooked food warm too. As well as warming, they can be used to defrost delicate foods, melt chocolate, make yoghurt and prove

Designed to coordinate with other NEFF appliances, we offer our Warming Drawers across both the N90 and N50 collection in two sizes - 14cm high, which holds 12 plates, and 29cm high, which can hold 40 plates. Also available within the N90 Collection is our 14cm fully extendable Accessory Drawer, ideal for additional kitchen storage.

CONTROL DISPLAY

A design for every Cookaholic

Our unique range of Slide&Hide[®] Ovens are available with 5 different control displays for navigating the cooking features. We offer everything from a large Full Touch TFT control to a traditional dial with electronic display, so you can decide on a design that suits your style of cooking.

N 90: Full Touch Control

Medium Shift Control: 4.1" high resolution

Small Shift Control; 2.5" high resolution

TFT colour graphics display

TFT colour graphics display

Intuitive display with fingertip control

Innovative Full Touch Control operation revolutionises convenience within our premium N90 Collection. The control panel sets new standards with fast navigation and simple, precise operation by touching or swiping the large highresolution colour TFT display.

Also available within our N90 Co

N 90: Medium Shift Control Offering the best of both

Also available within our N90 Collection is our trusty yet stylish Medium Shift Control that offers both a medium Touch Control display along with a shift panel to aid navigation.

Premium yet practical

Often a popular choice for control display, our Small Shift Control is available within our N70 Collection and offers the best of a high resolution display with a shift panel button for precise and easy navigation.

N 50: Electronic Control with Medium LCD Display

Traditional yet precise navigation

Our N50 Collection offers the convenience and precision of a traditional control dial alongside a stylish large LCD Display. The oven proposes a suitable temperature when a particular function is selected and displays the temperature digitally. Other display features include a control panel lock and, if left unadjusted for a period of time, the oven will switch itself off as a safety measure.

N 50: Small LCD Display

Medium I CD White electronic display

Simplicity at its best

An alternative control display offered within our N50 Collection. Featuring traditional controls dials alongside a small LCD display, navigating your oven can be as simple as you like.

THE PERFECT COMBINATION

Mix and match your appliances

Create your perfect kitchen by choosing your very own appliance combination and cooking features to suit your lifestyle. With our SeamlessCombination[®] strips you can seamlessly combine our N 90 and N 70 Collection of single ovens and compact appliances to create a sleek and stylish finish.

KEY FEATURES

CIRCOTHERM®

The CircoTherm[®] Power Boost function speeds things up even more when cooking for short periods of time – just put the food in and start the oven.

CIRCOTHERM[®] GENTLE

Optimised for gentler cooking and baking on one level. It's perfect for frozen or convenience foods, bread, cakes and meats. Available on all electronically controlled ovens.

VARIO STEAM®

Vario Steam[®] gives dishes just the right amount of moisture by adding steam at three intensity levels, for baking, roasting or just heating up. Foods come out with more intense flavour and an appetising appearance.

FULL STEAM

Make your favourite dishes healthier by locking in food's nutrients and flavour with our Full Steam function. It's easy to operate and also simple to refill the one litre water container – press a button to open the front panel, remove the container, fill it and you're ready to steam ahead.

Control your oven directly from a Smart Device App or Voice Command

OVEN CLEANING FUNCTIONS

V	V	V
~	~	×
-	~	~

PYROLYTIC SELF-CLEANING

Pyrolytic cleaning is a self-cleaning system for ovens. The process superheats the oven to approximately 485°C, which burns off any deposits from baking, roasting and grilling. This creates a perfectly clean oven and a residue of fine dust that's easily removed with a damp cloth.

OVEN CLEANING

A special electronic setting designed to keep EcoClean[®] surfaces inside the oven as clean as possible. Used on a regular basis, it can keep the oven's interior lining remarkably clean with minimal maintenance required.

BASE CLEAN

Base Clean helps clean the bottom of the oven by softening dirt with warm water. After the programme has finished you just have to wipe the base with a damp cloth.

$\left| 0 \right|$

EASYCLEAN®

For a lightly soiled oven, put approximately 400ml of water and a drop of washing-up liquid in the base pan and then select the EasyClean® programme. It softens baked-on residue so you can just wipe it down, for fast and uncomplicated oven cleaning.

DESCALING

All NEFF steam appliances contain a descaling programme which can be set according to the hardness of the water.

ECOCLEAN®

EcoClean[®] is a microfine ceramic bead coating on the oven's interior back or top, sides & back, depending on the model. It has a very large surface area, making it extremely absorbent. It absorbs fat droplets and keeps the inside of the oven clean.

COOKING FUNCTIONS

CIRCOTHERM®

The fan draws air from the interior of the over then heats it up and forces it back into the cavity to ensure even heat distribution. Cook on four levels within the N 90 and N 70 Collection and 3 levels within the N 50 Collection.

S

CIRCOTHERM® INTENSIVE

Uses a combination of CircoTherm® and bottom heat, ideal for foods that need a crispy underside like pizzas or speciality breads. It can also be used for one stage pastry such as lemon meringue pie, eliminating the need for blind baking.

~~~

S

### **TOP/BOTTOM HEAT**

Providing conventional cooking heat sources at the top and bottom of the oven. Heat travels to the centre of the oven by natural conduction. Ideal for baking pastries and scones.

| 2 | 100.00 |       | 0.01  |
|---|--------|-------|-------|

| 1 | Λn     | ideal | tun   |

### )ASTING

ion for cooking meat and poultry for a rotisserie result where the fan and top element alternatively come or

### **CENTRE SURFACE GRILL**

You can use just the centre section of the grill for smaller quantities.

### BREAD BAKING

Bread baking temperature varies between 180°C and 220°C. Ideally suited to baking crusty bread with an open texture. Up to three levels of bread can be baked at the same time

### LOW TEMPERATURE COOKING

A special setting for hob-sealed prime cuts of meat and poultry. Meat/poultry is placed in a preheated dish and transferred into the oven. The low temperature setting uses a fixed temperature to gently tenderise without overcooking, resulting in meat/poultry that is juicy and melts in the mouth.

### REHEAT

Reheat allows you to gently warm dishes again and thanks to the moisture in the oven, they will look and taste freshly prepared.

### CONVENTIONAL HEAT GENTLE

This setting heats up the centre of the oven for single shelf cooking. The oven maintains its average temperature for gentler cooking by reducing the thermostat cycles and using residual heat as part of the process.

### FULL SURFACE GRILL

The grill element is situated in the oven roof. It is thermostatically controlled and will cycle on and off to maintain the required temperature.

### DEFROST

The CircoTherm<sup>®</sup> fan circulates air through the oven to speed up defrosting times while retaining food colour and moisture. Ideal for delicate foods as well as fish and poultry.

### **BOTTOM HEAT**

Providing heat from the bottom of the oven, this method is ideal for pizza bases and pastry cases to create a crispy underside or for bain marie and casseroles.

### **KEEP WARM**

An ideal setting for keeping food warm without drying it out before serving. Typically set between 66°C to 100°C.

### PLATE WARMING

Hot air is circulated at up to 65°C to safely warm plates and service dishes in preparation for dinner.

### DOUGH PROVING

This function provides a warm, moist environment which gives perfect conditions for proving any yeasted dough

### AUTOMATIC SAFETY SWITCH OFF

For electronic ovens only, this feature will automatically cut in if no changes to the settings on the appliance have been made in a long time, giving you complete peace of mind.

| Temperature range | Automatic switch off after |
|-------------------|----------------------------|
| Under 140°C       | 73 hours                   |
| 141 – 200°C       | 6 hours                    |
| 201 – 250°C       | 3 hours                    |
| 251°C             | 2 hours                    |

### SLIDE&HIDE® PYROLYTIC OVENS WITH VARIOSTEAM®

### The ultimate choice for creative Cookaholics

Whatever your specialities, we've designed an oven to inspire even the most experimental cooks. Combining our unique Slide&Hide<sup>®</sup> disappearing door design with VarioSteam® and Pyrolytic Self Cleaning, creative cooks can achieve succulent meat, beautifully crusty bread and flavoursome bakes without worrying about roasting spatter and spillages.

5. 5. 64

### The only oven with a disappearing door is cleaner than ever

Our unique Slide&Hide® ovens now come with Pyrolytic Self Cleaning function. Using a high temperature programme to burn food residue to dust, which can be quickly wiped away once the oven has cooled, oven cleaning has now become a thing of the past. From bubbled over cheese or sizzling joints of meat, our Pyrolytic ovens give you more time to concentrate on your next creation.

## SINGLE PYROLYTIC OVENS

## The oven that almost cleans itself

When oven scrubbing simply isn't an option, our single pyrolytic ovens are the only choice for foodies who love to get creative in their kitchen. Simply activate the Pyrolytic Self Cleaning function to tackle tough splatter and spillages. Featuring a standard dropdown door, our single Pyrolytic ovens also feature the same fascia design as our Slide&Hide® range.

### SINGLE OVENS

## Cook a threecourse meal in one go with CircoTherm<sup>®</sup>

Featuring our unique CircoTherm<sup>®</sup> technology, a NEFF oven is designed with social dining in mind. With hot air drawn in from the oven via a stainless steel fan, each shelf is effectively wrapped to ensure that there's no intermingling of flavours across individual dishes. Our single ovens feature a standard drop down door and the same contemporary fascia design as our Slide&Hide<sup>®</sup> range.

DESIGNED WITH SOCIAL DINING IN MIND

\*

N 70

Featuring our unique CircoTherm<sup>®</sup> technology, NEFF ovens are perfectly designed for busy family life and sociable dining. With the option to cook different dishes across all four levels without any intermingling of flavours, each course can be cooked at the same time.

## COMPACT COMBINATION OVEN WITH FULL STEAM

### Perfect for health conscious Cookaholics

Our compact Full Steam ovens are the ideal choice for cooks who love to prepare fresh, seasonal produce. As well as retaining vitamin and mineral content in food, steam cooking preserves flavours, ensuring that less salt and oil additives are needed. Designed to complement our selected Slide&Hide<sup>®</sup> ovens range, SeamlessCombination<sup>®</sup> mounting kits allow you to 'mix and match' your own sleek and stylish appliance wall.

BARISTA INSPIRED COFFEE IN YOUR OWN HOME

Designed with true coffee connoisseurs in mind, our compact coffee centres are the ultimate addition to any sociable kitchen. From Cappuccinos with friends to that essential morning Espresso, use the MyCoffee option to select up to 8 firm favourites.

<sup>1</sup>Measured according the EN50304, 65/2014. <sup>2</sup> For further information on inverter technology, please go to www.neffhome.com/uk. <sup>1</sup>For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once more.

## COMPACT OVENS WITH MICROWAVE & MICROWAVE COMBINATION OVENS

### Delicious results in rapid time

Designed to offer the ultimate flexibility, a compact oven with microwave functionality combines the benefits of conventional oven cooking and microwave cooking. Food is cooked quickly and dishes which benefit from oven baking & roasting are left beautifully fluffy on the inside and crisp on the outside.

### Ovens with integral Microwave<sup>1</sup>

N 90

### Want an oven that offers more versatility for creative cooking? NEFF compact ovens with microwave give you all the benefits of a traditional single oven, but with the added power of a microwave. This combination of traditional oven led cooking supported by low medium power microwave (max. 360W) lets you speed up the cooking process while still delivering the flavours and results you'd expect from your NEFF oven.

In addition, you can also team the compact oven with microwave together with a traditional single NEFF oven, creating a highly versatile alternative to a double oven.

Microwave Combination Ovens<sup>1</sup> Wish your microwave gave crisp and brown results like your oven? That's exactly what you can get with a NEFF microwave combination oven. The combination of microwave (max. 600W) supported by hot air or grill functions enhance your cooking for golden and delicious meals. It's the speed you'd expect from a microwave but with the flavour and appearance you get from an oven or grill.

maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once m

## **MICROWAVE OVENS**

### Style and convenience built-in

Our built-in microwaves fit seamlessly into your cabinetry. Depending on your chosen model, you'll enjoy handy automatic programmes that suggest ideal cooking times, a full touch TFT display, or a Memory Function that allows you to select your favourite settings with just one touch of a button. Selected microwaves also feature a grill, so you can finish off your comforting lasagne with a layer of beautifully golden cheese.

### **INVERTER TECHNOLOGY**

Inverter Technology delivers microwave power constantly while cooking – other traditional microwaves are only able to deliver maximum power and manage the differing settings by alternating between on and off for specific time periods. This can result in uneven heating or overcooked food and can be especially damaging to more delicate foods or smaller portions.

With Inverter Technology, the microwave delivers power constantly, gradually managing the power levels down over time in order to control the food temperature. This gentle approach to cooking reduces uneven heating or overheated food and is especially beneficial for delicate foods. It may be necessary to adjust cooking times to ensure foods are thoroughly cooked before serving.

NEFF recommends that the maximum power setting be used for heating liquids and the microwave is calibrated to provide a burst of high power initially, before managing the power down in stages to the next level over the first few minutes.

# A HELPING HAND IN THE KITCHEN

We never underestimate the convenience of a microwave. Designed to complement with our selected single ovens, it's easy to create a cooking station which perfectly meets your needs.

LAUNDRY

### Integrated convenience

With our 29cm warming drawer holding up to 40 plates, a larger size warming drawer is ideal for cooks who regularly entertain family and friends. If a slimmer version is more in-keeping with your space, our 14cm drawers also offer an impressive 12 plate capacity. With the option to melt chocolate, prove bread and keep your meals warm before serving, our warming drawers assist from prep to table.

# THE PERFECT KITCHEN ASSISTANT

Invaluable in any serious kitchen, our warming drawers help at every stage of the cooking process. Ideal for proving, melting, defrosting and keeping cooked meals and crockery warm, our warming drawers perfectly sit below our single and compact ovens.

> Combine N 90/N 70/N 50 drawers with ovens and compacts from the same Collections.

Warming drawer, compatible with N 90 and N 70 models

## **BUILT-IN DOUBLE** OVENS WITH CIRCO THERM®

### The versatility of two cavities

With the convenience of two oven cavities, our built-in double ovens provide any Cookaholic with plenty of cooking space without impacting on kitchen design. Featuring NEFF's CircoTherm<sup>®</sup> technology in the main oven and Pyrolytic Self Cleaning in both, it's possible to cook different dishes on multiple levels without any intermingling of flavours or mess to clean up.

## A HOB FOR EVERY COOKING STYLE

### Rethink cooking in NEFF's infinite kitchen

A great meal is all about the ingredients and cooking process. And it's the same when it comes to choosing the right hob. If you want flexibility, an electric FlexInduction hob might be what you're after. Or pick one of our innovative gas or fast induction hobs. Can't decide which one? Then the Domino range might be the best hob for you, as it mixes all of the above. There's a NEFF hob for anyone to get creative with.

## **VENTING HOBS**

The 2-in-1 Hob and Hood is here. With freedom from a conventional wall or island hood, our integrated cooktop ventilation allows you to reclaim your space in the kitchen. The Neff Venting Hob is set to create the stylish and sociable kitchen you've always dreamt of

T58TL6EN2 N90 Venting Hob

## CERAMIC HOBS

With their frameless design, our Ceramic hobs standout in any kitchen, and a whole range of options with up to 17 power settings makes preparing the next feast as easy as pie. Better still, our enhanced touch control panel provides full flexibility over your cooking.

T16FD56X0 N70 Ceramic Hob

## FLEX INDUCTION HOBS

For sociable cooks who often find themselves juggling multiple pans, a FlexInduction hob provides any size pan, anywhere cooking within the zones. Vhen the zones are activated, pans will receive instant, even and rapid heat transference wherever they are placed. Most hobs within the FlexInduction ange are controlled by our innovative and stylish TwistPad Fire® removable and illuminated magnetic dial

T59TS61N0 N90 FlexInduction Hob with

## DOMINO HOBS

Our domino hobs can be mixed and matched to create a cooking station that's all your own. With gas (30cm), Quick-Light ceramic (30cm), FlexInduction (30cm) and Teppan Yaki (40cm) hobs within the range, our Domino hobs can be linked to provide the ultimate versatile cooking experience.

N53TD40N0, N23TA29N0 Domino Hobs

# INDUCTION HOBS

a del toto

If sleek. stylish and clean lines are more in keeping with your kitchen design, our Induction hobs provide a minimalistic and premium look whilst providing a quick and responsive cooking surface. Cooking with an Induction Hob saves energy and is incredibly safe - there is little residual heat once the saucepan is removed from the hob.

T36FB40X0 N50 Induction Hob

## GAS HOBS

For traditionalists who prefer to see exactly how much heat is delivered to their pans, gas cooking provides a robust and reliable way to prepare your favourite dishes. You can control your hob by numbers and not by eye with our precise and responsive FlameSelect<sup>®</sup> heat control feature, available across selected gas hobs.

## Gas Hobs

Black tempered glass

Ceramic Glass on stainless steel trim

White finish

We strive to maintain a range of hobs with sizes and finishes to suit all requirements. Choose from a number of options including colour trimmed models to match other NEFF appliances, or variations that blend in naturally with the worktop.

### EFFICIENCY

Black finish

Induction hobs are particularly energy efficient, using around 30% less energy than gas or ceramic hobs. The energy goes directly to the pans and the food inside them, so that almost no energy is lost. And because the heat needed is available much quicker, induction uses less energy than other fuel types.

### SAFETY

People have used gas for decades as a quick, easy and safe means to cook. However, constantly changing international standards have brought safety into clearer focus, and as a result we've incorporated effective safety features into many of our gas hobs, like flame control, explained on page 52.

# A HOB TO SUIT EVERY CHEF

Frameless with front bevel

Flushline

Steel

### CLEANING

The easiest hobs to clean are ceramic and induction models. Their smooth flat surface is easy to wipe down, and because the temperature of the glass is much lower than other hob types, spillages do not burn on and can be quickly cleaned up.

### 60CM PLUG&PLAY HOB

T36FB41X0G and T36CA50X1U Plug&Play are frameless induction hobs that are designed to work off a standard 13amp plug. This gives the flexibility of installing an induction hob without the need for hard wiring. If your usage for an induction home is very light and you need a basic induction hob then this is an idea choice – as more zones on the appliance are engaged then the power to each diminishes - meaning it can deliver ample power and efficiency when one or the two zones are used – perfect in homes which may be single occupancy.

## INDUCTION COOKING

### Heat adjustment at your fingertips

An induction hob provides one of the most efficient methods of cooking. Extremely fast, with the ability to accurately control the power, induction hobs contain a strong electromagnet positioned under the surface of the hob. When a zone is activated and a ferrous metal pan is placed on it, a circuit is created which begins a rapid, even transference of heat to the base of the pan and its contents.

### Because every cook has their own unique cooking style

For entertainers, professional cooks or large families, induction cooktops provide a fantastic solution to demanding cooking requirements. The modern design, with clear print lines, supports a variety of pan sizes while reflecting a minimalistic design trend. Proud of its innovations in Induction Cooking, NEFF has a range of features and functions to suit every cooking style.

## WHY TO CHOOSE INDUCTION COOKING AN INDUCTION HOB WILL BOIL A PAN OF WATER ALMOST TWICE AS FAST AS A GAS HOB

### **STYLISH**

Ceramic induction hobs are sleek, shiny and smooth - they complement the minimal, uncluttered lines of today's stylish kitchens.

### RESPONSIVE

Induction hobs are extremely controllable; as soon as a saucepan is removed it breaks the circuit and diffuses heat instantly. Featured Model: T48PD23X2 N50 80cm Induction Hob

### EASY TO USE

The flat, non-porous surface can be wiped over quickly, with areas around the circular zones remaining cool even during cooking. That way, if food spills or boils over it won't ever get burnt on to the surface.

### **ENERGY EFFICIENT**

Induction hobs are extremely energy efficient with the added advantage of saving money on electricity bills. The precise amount of energy needed is only ever used as just the base of the pan heats up.

### SAFE TO USE

A feature on all of our induction hobs, automatic pan recognition 'senses' and subsequently only heats up saucepans with a smooth, flat base, suitable diameter and ferrous metal content. This ensures that the hob will not heat up items like metal spoons accidentally left on induction zones, for added peace of mind.

vote: Unly saucepans made of ferrous metal ar uitable for use on our induction bobs

## **KEY FEATURES & FUNCTIONS**

POWER BOOST - Optimised power level function for more flexible and even faster heating.

**TOUCH CONTROL** – Simply select a zone then swipe your finger across the control panel to select a heat mode.

POWER MOVE - The combi zone offers two heating zones: boiling in front and warming in the rear.

**COMBI INDUCTION** – 2 individual induction cooking zones can be combined to 1 large zone with even heat distribution.

**INDUCTION** – The heat is generated directly in the cookware for precise cooking that stops when power is off

## ADDITIONAL FEATURES & FUNCTIONS

CONTROL PANEL LOCK – A useful safety feature, just switch on the control panel lock to make sure children can't play with the controls.

QUICK START – Allows for a quick and immediate start to the cooking process as the hob detects the pan, which then activates the zone.

**RESIDUAL HEAT INDICATORS** – Primarily a safety feature – 'H' means it's hot enough to continue cooking; 'h' means it's not hot enough to cook, but too hot to touch.

**RESTART** – Provides full control over the hob by recalling the current used setting for up to four seconds if the hob has been unintentionally switched off by simply pressing the main switch.

CONTROL PANEL SUSPENSION – Activates a freeze setting at the touch of a button, allowing the hob to be wiped clean easily and safely.

SAFETY CUT-OUT FACILITY -For added peace of mind, our induction hobs feature a safety cut-out facility which activates if the hob has been in constant use but no settings have been changed for a period of time.

## VENTING HOBS

### The 2-in-1 hob and hood

With freedom from a conventional wall or island hood, our Venting Hob allows you to reclaim your space in the kitchen. Offering a cooking surface with a powerful, built-in extraction mechanism, the NEFF Venting Hob is set to create the tasteful and modern kitchen that you've always dreamt of.

## A KITCHEN TO BREATHE IN

Our Venting Hobs free you to place the hob wherever you want, whether it be on a kitchen island or in front of a window. With no hood in the way, there's nothing to block your view or creativity.

With a stylish cast-iron grate placed over the hood, the grate conveniently doubles as a pan rest too – even when it's on. Selected Venting Hob models offer the following:

- Space-saving
- Better extraction
- Quiet
- Hob Hood Control
- Suits any layout 60cm, 70cm,80cm
- Standard zone, Combizone or flexinduction

FLUSH EXTRACTION

INSTALLATION FELXIBILITY

## + POWER MOVE

Divide the hob into three heat zones, each with a different power level so you can easily move a pot between intense heat at the front, simmering in the middle and a low, keep-warm temperature at the back.

## **KEY FEATURES & FUNCTIONS**

**TWISTPAD®** FIRE – With the removable and illuminated TwistPad®Fire dial you can react to pans bubbling away quickly and easily. Simply point and twist towards your cooking zones to activate and adjust heat.

**TOUCH CONTROL** – Simply select a zone then swipe your finger across the control panel to select a heat mode.

**COMBIZONE** - Individual yet flexible cooking areas can be used independently or linked together to create an expanded cooking zone that is optimised for flex induction.

## **4 TYPES OF INSTALLATION**

The different types of installation can be seen on **page 56** and full list of installation accessories can be seen on **page 13** of the **Appliance Line Drawings**.

## FRYING SENSOR

This function can be used to fry food while maintaining the suitable frying pan temperature.

(+)

## POWER TRANSFER

(+)

Move pots anywhere in the double FlexZone and the setting will automatically move with them. All it takes is a single touch of a button.

## ADDITIONAL FEATURES & FUNCTIONS

**AUTOMATIC AIR SENSOR** – Automatically adjusts the extraction rate to match the situation in the kitchen.

**HIGH EXTRACTION RATE** – Ensures a clear view while cooking thanks to efficient motor technology.

**REDUCED NOISE** – Our optimised motor guarantees a quiet cooking experience.

**SPACE-SAVING INSTALLATION** – Room for pull-out drawers thanks to the installation of the extractor duct in a lower cabinet.

**POWER BOOST** – Optimised power level function for more flexible and even faster heating.

## **FLEX INDUCTION HOBS**

### Innovations in flexible cooking

With the majority of Flex Induction hobs featuring TwistPad® operation, simply point and twist the removable dial towards your cooking zones to activate, or upgrade to the TwistPad® Fire and control both the hob and hood settings on your integrated appliance. Once you've finished cooking, the magnetic dial can simply be removed for a sleek, premium cook top finish. If you're looking for the ultimate feature navigation, choose a FlexInduction hob with our innovative large high-resolution colour TFT display. Available on selected models, our most premium control display guides you easily through the menu, and its high contrast screen makes for a stunning worktop design.

> REMOVABLE. MAGNETIC DIAL

## FLEXINDUCTION - A NEW GENERATION OF INDUCTION COOKING

FlexInduction hobs provide greater flexibility by heating pans of any size, positioned anywhere in the zone.

Offering greater flexibility by using an enlarged single zone that heats pans of any size that are positioned anywhere within it, giving maximum flexibility for all users and better control over cooking requirements.

FlexInduction hobs have one or two elongated induction zones, which create a total cooking area each of 380mm x 200mm, providing consistent heat across the whole of this surface.

Beneath the glass of each of these zones there are four unique induction coils, which work independently or together, dependent on whether a pan is detected on the surface. This means that energy efficiency is maximised and pans of any size can be placed anywhere in the zone.

## FLEX INDUCTION IS PERFECT FOR ANY SIZE PAN, ANYWHERE COOKING

STYLISH HOB CONTROL

## TwistPad® fire

Featuring a unique, illuminated and removable dial, our TwistPad® Fire control feature has been designed to react to pans bubbling away quickly and easily. Simply point and twist the clever magnetic dial towards your cooking zones to activate and adjust the heat accordingly.

Available with selected FlexInduction hobs, TwistPadFire<sup>®</sup> makes controlling your hob easier, and more stylish, than ever before.

Available on selected FlexInduction and Venting Hobs.

## HOW DO YOU LIKE TO COOK? WITH NEFF DOMINO HOBS, THE OPPORTUNITIES ARE ENDLESS ...

## DOMINO DOUBLE

DOMINO HOB

HOB

## DOMINO HOBS

Our Domino hobs can be mixed and matched to create a cooking station that's all your own. With gas (30cm), Quick-Light ceramic (30cm), FlexInduction (30cm and 80cm) and Teppan Yaki (40cm) hobs within the range, our Domino hobs can be linked to provide the ultimate cooking experience. If you know exactly how you like to cook but prefer an additional zone for those speciality dishes, it's also possible to mix a full sized hob with an extra Domino zone.

### Bespoke solutions for creative cooks

Example combination, Double Combination shows a FlexInduction Domino Hob with a Domino Gas Hob.

Example combination, Hob Combination shows a 80cm FlexInduction Hob with Teppan Yaki.

## USING A GAS HOB

### The original re-imagined

Cooking with gas is a tried and tested medium. Its reliability, responsiveness and versatility have earned it the loyalty of both amateur and professional cooks alike. Our new range of gas hobs now feature FlameSelect<sup>®</sup>, innovative technology that gives you more control options to select precise heat to suit whatever your are cooking.

## BECAUSE IT'S SO RESPONSIVE AND CONTROLLABLE, GAS IS STILL THE NUMBER ONE CHOICE FOR MANY NEFF CUSTOMERS.

## THE NEFF GAS HOB RANGE

With gas, each pan requires its own burner to receive heat, so consideration needs to be taken over the average usage that the hob will receive and how many burners are going to be used. We provide three widths of gas hob, with a range of four and five gas burners. Some come with a larger wok burner as standard, but many models have a wok support available as an accessory.

T29DA69N0

T26DA59N0 60cm 4 burner hob

# FLAME SELECT®

### Gas cooking has never been more precise

With FlameSelect<sup>®</sup>, the gas flame adapts to the dish and not the other way around. Whether you're searing a steak, boiling pasta, or simmering a roast, you can set the heat just as you would with an electric hob. Select one of the 9 heat levels available and you can see how the flame becomes larger or smaller just as you need it. For the first time ever, cooking with gas is as easy as cooking on an electric hob.

## HOW DOES IT WORK?

With innovative and patented valve technology, our FlameSelect® gas hobs can regulate the gas output precisely in levels from 1 to 9. The power levels can then be set in proportional steps exactly like the power setting of an electric hob. Additionally, the control dials are accentuated with printed numbers in order to clearly highlight the chosen power levels.

90cm 5 burner extra-wide hob

T27DA69N0 75cm 5 burner wide hob

### **BENEFITS OF A CERAMIC GLASS GAS HOB**

Ceramic glass gas hobs feature a range of additional benefits over tempered glass hobs. In terms of safety, they have extra heat resistance and are ultra durable. They feature low-profile, one-piece burners which clean easily and always look trim and streamlined. The glass used is also exceptionally strong which keeps the thickness down to just 4mm. Finished with high precision, bevelled edges and mounted on a steel frame, they come complete with pan supports.

## CONTROL YOUR HOB BY NUMBERS, NOT BY EYE

FLAMESELECT

## THE FIRST GAS HOB TO ADAPT ITSELF TO ANY DISH

## GAS HOBS FEATURES & FUNCTIONS

### A true favourite amongst passionate cooks

Searing, boiling and flambéing on flames resonates with the primal cook in all of us. NEFF gas hobs combine the style and reliability that cooks expect from this powerful method of cooking. Proud of its innovations in Gas Cooking, NEFF has a range of features and functions to suit every cooking style.

# HOB ACCESSORIES

We've carefully designed a range of cooking accessories to allow you to get the most out of your hob. From robust saucepans to creative cooking solutions for our FlexInduction hobs, there's lots of ways to try something new with NEFF. To ensure compatibility please check the specific model.

### FLEX INDUCTION ACCESSORIES

Spanning the length of your FlexInduction zone, our accessories are designed to inspire you in the kitchen. From everyday cooking to theatrical displays, there's an accessory to bring out the best in your favourite dishes.

### **GRIDDLE PLATE**

Ideal for cooking steaks, fish, flatbreads and sliced vegetables, an induction griddle plate offers considerably more flexibility than a standard square griddle pan. All accessories within our induction range are easy to clean and dishwasher safe. Surface area: 41.5 x 26.5cm

### **TEPPAN YAKI**

transference for delicious, impressive dishes. Surface area: 41.5 x 26.5cm

Z9417X2 (accessory number) 00575951 (part number)

Z9416X2 (accessory number)

00576158 (part number

### SAUCEPANS

Ferrous metal saucepans are required for use on an induction hob. To check if a saucepan can be used with an induction hob use our quick magnetic test shown below. NEFF saucepans have been tried and tested to ensure that they offer optimum performance with NEFF hobs.

In most cases if the magnet sticks, the pans are made from ferrous metal and are therefore likely to be suitable for use on induction hobs.

### **OVAL ROASTER AND STEAMER RACK**

With our roaster and steam accessory, it's possible to steam on a NEFF induction hob too. Ideal for preparing delicate fish and vegetables, steam cooking is a great way to prepare healthy, nutritious dishes. Oven and dishwasher safe.

Z9410X1 (roaster accessory number) 00573879 (roaster part number)

## **KEY FEATURES & FUNCTIONS**

52 neff-home.com/uk/

FLAMESELECT® - Cook everything just right with 9-level FlameSelect<sup>®</sup>. With FlameSelect<sup>®</sup> the gas flame adapts to your cooking, offering precise control every time. For the first time ever, cooking with gas is as easy as cooking on an electric hob.

**POWER LEVEL DISPLAY** – Some gas hobs benefit from a host of features that are usually found on ceramic hobs, including an LED display. The residual heat indicator displays if there is any residual heat on the hob. In the event of a problem with the individual burner the indicator lights also act as warning lights.

HIGH SPEED BURNERS - Provide a surge of extra power; particularly useful for boiling a large pan of water quickly.

WOK BURNER – The secret of Chinese stir fry cooking is heat and speed. Our Domino wok (N23TA29N0) delivers 6.0kW.

FLAME CONTROL – The flame failure safety device shuts down the supply of gas to the hob if the flame goes out for any reason. The automatic reignition uses a heat sensor to detect if the flame goes out and, if so, will automatically attempt to reignite.

CAST IRON PAN SUPPORTS - Firmly hold the pan above the flame, leaving space between the base and the burner. They're used on the majority of our models because of their robust and sturdy nature and tolerance to prolonged contact with heat.

EASY GRIP CONTROLS – Ergonomically designed to be gripped and turned easily, even with wet or greasy hands.

SIMMER SETTING - Excellent for slow simmering, almost all of our gas hobs have a very low burner with a maximum of just 1.0kWh.

# ALL THE TOOLS FOR ANY EAGER COOKAHOLIC

Inspired by Japanese cooking, our Teppan Yaki plates are a stylish way to cook meat, fish and vegetables. Ideal for sociable cooking, Teppan Yaki plates provide even heat

## FLEX INDUCTION HOBS

### The joy of flexible cooking

Flex Induction offers creative cooks the ultimate freedom. With enlarged cooking spaces, the whole zone becomes you cooking canvas. Enjoy innovative controls such as the large high-resolution colour TFT display that guides you easily through the menu, and its high contrast screen makes for excellent legibility.

Our Flex Induction hobs are created to respond to your way of cooking. Delivering heat exactly where it's needed, Flex Induction is a truly liberating way to prepare your favourite dishes. With a range of griddle pans and Teppan Yaki grill plates available from the NEFF online store, creative cooking has never been easier. With the majority of Flex Induction hobs featuring TwistPad® operation, simply point and twist towards your cooking zones to activate, or upgrade to the TwistPad<sup>®</sup>Fire and control both the hob and hood settings on your integrated appliance. Once you've finished cooking, the magnetic TwistPad® dial can simply be removed for a sleek, stylish cook top finish.

3 Flex Induction zones

## FLEX INDUCTION HOBS

### Heat adjustment at your fingertips

Are you fond of exploring new and untried recipes and tastes? Our range of induction hobs lets you indulge each and every second of the cooking experience. Our FlexInduction hobs allow you to move your cookware freely around on the hob. The pots are automatically detected and heat applied where it's needed. But there's more to our hobs to guide you to a tasty result. Take the TwistPad<sup>®</sup>Fire which puts heat at your fingertips. A simple rotating motion with your index finger allows you to set the temperature.

## **INDUCTION HOBS**

### Sleek, stylish & responsive - the perfect addition to a contemporary kitchen

Our induction hobs deliver heat exactly where you need it with little residual heat. This makes induction cooking one of the safest and most efficient modes of cooking around. Offering an extra-wide cooking surface and Full Touch Control operation, this hob is created with passionate, experimental cooks in mind.

## CERAMIC HOBS

### Quick by name, quick by nature

With their frameless design, our Ceramic hobs stand out in any kitchen, and a whole range of options with up to 17 power settings makes preparing the next feast as easy as pie. And as cooking is all about creativity and individual taste, our enhanced touch control panel provides full flexibility over your cooking.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode elec 14.6kW power output (20A); Current management options for 16A, 13A or 10A connection. \*MasterPartner® and AAR product only.

## DOMINO HOBS

### Mix and match your own unique hob

NEFF Domino hobs allow you to combine different cooking zones to create a hob which reflects how you like to cook. With the option to mix and match our gas, Flex Induction and Teppan Yaki Domino hobs, cooking variety is made possible without taking up too much of your work surface. Offering a contemporary Japanese-inspired mode of cooking, our Teppan Yaki Domino hob is designed for direct contact cooking. Ideal for fish, meat and vegetables, try combining with a gas or induction hob to create a truly creative hob.

### Connecting Your Domino Hobs It's simple to mix and match your Domino cooking zones using our connecting links accessory kit (Z9914X0). With a brushed steel design, our connecting kit creates a stylish and flexible hob effect.

## GAS HOBS

S. Car Start

- 52 61 M

### Ingenious flames

For some cooks, there's nothing like preparing meals with flames. Our gas hob range provides you with the tool you need, no matter if you want stir-fry or slow-cook. Our 9-level FlameSelect® allows you to adjust the flame just like on an electric hob, making cooking even easier. With a range of sizes available, our hobs are ready for almost any kind of pot you can think of. Like Asian style? With our Dual Wok you have two flame rings stacked on top of each other – an ingenuous idea to adjust two flames for one delicious task.

## COOKER HOODS

#### A hood for every cookaholic

NEFF hoods are designed to cater for every Cookaholic's kitchen. Efficient, quiet and equipped with features such as built-in ambient lighting, the design and placement of your hood can be as flexible, and stylish, as your living space.

> WHEN YOU USE I ULLIN

### WHY IS VENTILATION SO IMPORTANT?

With the increase of open plan living, choosing the right quality ventilation solution has never been so important. Your hood needs to be quieter and more powerful to maintain the perfect living environment.

### THE COLLECTION

Island

Control

Island

### The finishing touch to the perfect kitchen

At NEFF, we understand that selecting the right hood to complement your kitchen and cooking style can sometimes be challenging. To help you select the right cooker hood for you, we've categorised all our models into easy-to-follow Collections based on product features, control display and design.

### **ISLAND SOLUTIONS**

#### Simply eye-catching

If you like a contemporary-styled kitchen with an island cooking area, our island cooker hoods can add an inspiring focal point. A kitchen island, being in the centre of the kitchen, provides a hub for cooking, entertaining and socialising in one of the most used rooms in the home.

#### Access all areas

With our ceiling installation cooker hoods, the hobs can be accessed from all sides. Many of these hoods feature Home Connect Smart Technology and let you control the ventilation from the hob or using a voice assistant, as well as a conventional remote.

#### **CEILING HOOD AND HOB**

Kitchen islands are an ideal space for you to experiment with ingredients and entertain your guests. By incorporating your NEFF hob and ceiling cooker hoods within your island, you'll have more useful kitchen space and a fresh, clean atmosphere.

**DOWNDRAFT HOOD** If you're looking for powerful ventilation without disturbing anyone while preparing meals, our Downdraft hood is a great choice.

**VENTING HOB** The venting hob will give you freedom from conventional wall or island mounted hoods; our integrated hob and hood allows you to reclaim your space. Strong performance, extremely silent and outstanding design.

**ISLAND CHIMNEY HOOD** Our stylish island extractor hoods include advanced features to ensure your kitchen is free from smells whilst you cook.

### **KEY FEATURES**

- Sontrol your hood with both your smart device and voice command with Home Connect.
- Make your hob and hood work in harmony with Hob Hood Control, perfect for keeping your hands free, and focus, on the cooking.
- Achieve high extraction rates with quiet 0 noise levels thanks to our Efficient Drive motor.
- Adjustable LED white colour temperature 0
- Comes with a remote control for easy 6 setup and control.

### MODELS AVAILABLE IN STANDARD 90CM OR WIDE 120CM

- Recirculation is also possible with a separate recirculation module. This includes either a CleanAir filter or a Regenerative Filter which is longer lasting for 10 years - simply regenerate in the oven every 4 months.
- Create custom experiences e.g. ambient lighting change colour when you start cooking on an island
- You have total flexibility with regards to 0 your hob configuration.
- There is no compromise in terms of island storage. Allowing you to make the most of your drawers and cupboards

### **INTEGRATED FURNITURE HOODS**

#### A great fit

When cooking up a meal for friends and family the last thing you want is the noise of a hood in the background. Our integrated furniture hoods are built to operate on low noise levels while maintaining high air quality in your kitchen. Choose between telescopic and integrated hoods to find the hood that fits your kitchen, and cooking style, best.

### WALL MOUNTED HOODS

#### For a fantastic atmosphere

Hoods installed on the wall can be used to create a design feature in themselves, adding a focal point to your kitchen while offering powerful extraction for all types of cooking. Choose from a range of styles to suit your kitchen design, including the trendy Creative Slim hoods or Angled Glass hoods with features such as Ambient Light that let you express yourself with colour, as well as your cooking. And if choosing to install in recirculation, the hood can be fitted without a chimney piece for a sleeker finish to your hood installation.

ANGLED GLASS Our black glass chimney hoods perfectly coordinate with our ovens and the NEFF Induction hob range.

FLAT SLIMLINE Our black Flat Slimline Chimney Hoods create a sleek finish to your kitchen and coordinate with the NEFF Induction hob range.

**GLASS CHIMNEY** Stylish stainless steel design and clear glass canopy in either a flat or curved design.

#### **BOX CHIMNEY**

The focal point of any kitchen, our chimney hoods are modern and eye-catching. With a vast range of designs, each provides the ideal mix of style and performance.

**PYRAMID CHIMNEY** Ideal when you're trying to achieve the look of a modern kitchen, our stainless steel Pyramid Hoods are stylish and striking.

**SLIM PYRAMID CHIMNEY** Our classic design hood with a modern twist - experience the slim pyramid hood.

**TELESCOPIC HOOD** For a smaller kitchen where space is at a premium, these clever hoods pull out from underneath a cabinet when

required.

# **INTEGRATED HOOD**

These hoods look like they're part of the furniture. Hidden behind a unit door, they simply pull out when needed.

### WORKTOP INSTALLATION FREES UP YOUR SPACE

f you're looking for powerful ventilation without disturbing anyone while preparing meals, our Downdraft Hood is a great choice. Devised for kitchen islands, it coordinates beautifully with our induction hobs. The Downdraft Hood is simply built into your worktop or kitchen furniture. Rising at the touch of a button, it gets to work quietly and effectively. You can choose between 3 power levels and 2 intensive levels, using TouchControl. Once activated, the hood can even act as an automatic air freshener: it runs five minutes every hour to keep your kitchen atmosphere nice and fresh - a clever idea for parties.

### **CANOPY HOOD**

Designed to fit neatly under an overhead unit, Canopy Hoods are discreet and save valuable kitchen space.

If you're looking for powerful ventilation without disturbing anyone while preparing meals, our Downdraft Hood is a great choice.

OVEN

### HOODS FEATURES & FUNCTIONS

### Because every cook has their own unique cooking style

Looking for powerful extraction without distraction? Our advanced range of hoods have been designed for those who long for a premium look in the kitchen. Proud of its continuous innovations in cooker hoods, NEFF has a range of features and functions to suit every cooking style.

### **READY FOR A NEW KITCHEN?**

Get inspiration, advice and more on the NEFF Inspiration Hub. You'll find articles by professional designers, installation advice and galleries of real NEFF kitchens to help you create a room that's right for you. Visit Neff-home.com/uk/design-ideas to see how other people and professional designers are creating their NEFF kitchens

### **KEY FEATURES**

HOME CONNECT – Control all functions and settings of your hood directly from your smart phone and voice control for the ultimate connected cooking experience.

HOB HOOD CONTROL – Being able to control the hood directly from the hob means the hood turns on when you start cooking and, in automatic mode, can automatically regulate the power level for the best performance with the lowest noise - it also means you no longer need to worry about adjusting the hood and you can focus on your cooking.

**CLIMATE CONTROL –** Detects the amount of steam and smells using a sensor attached to the motor and automatically sets the most effective power level to extract it.

AMBIENT LIGHT – Illuminates your kitchen in the light that suits the occasion best. Choose from 31 colours to change how your kitchen looks and, most importantly, how it makes you feel.

| EFFICIEN |
|----------|
| 1        |

**EFFICIENT DRIVE MOTOR –** Save energy and enjoy a noise free, illuminated kitchen environment thanks to our ultra-efficient high-speed extractor hood fan, with Efficient Drive motor technology and LED lights.

**NEFF SILENCE BUTTON –** The unique noise reduction function reduces the fan noise by a couple of decibels, ensuring that the kitchen stays quiet while you cook and entertain your quests. This function can be used at any fan setting except fan setting 1.

SATURATION INDICATORS - Take the stress out of guessing, this function will prompt you if the grease filters should be cleaned. If the hood is installed in recirculation, this will also indicate when the charcoal filters need replacing.

BOOST POSITION For our sleek angled glass and flat hoods, receive an extra boost of extraction performance in special cooking situations, for example when frying meat or fish. The front panel can be slightly opened during cooking to a defined extraction boost position in order to increase the steam catching rate of the hood and keep your kitchen free from steam.

### FEATURES & FUNCTIONS

#### **AUTOMATIC AFTER-RUNNING**

Continues running at a low speed for 3-30 minutes before turning itself off. Perfect for keeping fresh air in the kitchen post cooking.

#### **NEFF FRESH AIR**

Runs an automatic air exchange programme, turning the hood onto power level one for five minutes every hour for as long as required.

#### **INTENSIVE SETTING**

Boosts the extraction rate to the maximum level to cope with particularly demanding cooking conditions.

### KEEP YOUR KITCHEN UNDER CONTROL

#### HOME CONNECT Compatible with

Amazon Alexa and Google Assistant. works

alexa with

**TOUCH CONTROL** 

**REMOTE CONTROL** Available across all Ceiling Hood models.

#### **ROTARY SWITCH** CONTROL

Featured on selected Canopy Hood models within our N70 Collection, our Rotary Switch Control features a pop-out dial with 3 levels of power to choose from. When not in use the dial can be neatly popped back into place.

### AUTOMATIC REVERT

Automatically reverts the hood back to a lower power level after approximately ten minutes of being on the intensive setting.

### ELECTRONIC POWER LEVEL DISPLAY

The sleek display clearly shows the selected fan power level setting.

### SOFT LIGHT

Brightens or dims the lights as it's switched on or off; just press and hold to adjust the level of brightness.

### SOFT TOUCH CONTROL

Available across selected models within the N70 and N50 Collection, our Soft Touch Control hoods allow for greater control over power levels. Selected models also feature a white LCD screen.

### PUSH BUTTON

Our classic hoods feature simple, sleek and easy to use push button controls. Available across selected models in the N30 Collection.

### **ROCKER OR SLIDER SWITCH CONTROL**

Available on our N30 Telescopic and Canopy models, our rocker or slider switch control offers a simple and straight forward setting navigation that's neatly concealed within the hood furniture.

### HOB HOOD CONTROL

#### Fresh air right when you need it

Gone are the days that you need to worry about setting your hood to the relevant setting. When you start cooking on the hob, our hoods will automatically switch on, light up and adapt an extraction level suited to the amount of steam and odours detected. Available across selected models within our Ceiling and Wall Installation ranges, Hob Hood Control allows you to focus purely on the cooking and keep messy hands where they should be.

Hob Hood Control available with our stylish ceiling hoods

Hob Hood Control available with our statement Box Island Hood

Hob Hood Control available with our sleek, modern Angled Hood with Ambient Lighting

Hob Hood Control available with our wall installation Box Chimney Hood

### CLIMATE CONTROL SENSOR A FULLY AUTOMATED HOOD

Also available across selected premium hood models is our clever Climate Control Sensor feature. Benefits you can expect with a Climate Control Sensor hood are:

- Turn on the hob and the hood comes to life, including the lights
- The hood is completely automatic, so you can enjoy worry-free cooking
- The sensor constantly monitors cooking smells and steam
- The fan speed will automatically adjust to what you're cooking
- The hood will turn itself off when no steam or smells are detected

Choose a hood with Climate Control Sensor for maximum performance and minimum energy consumption.

### **AMBIENT LIGHT**

Illuminates your kitchen in the light that suits the occasion best. Choose from up to 31 colours to change how your kitchen looks and, most importantly, how it makes you feel.

# LIGHTING

### Warm and welcoming lighting – the true mark of a kitchen

2 + 2 0 4

Illuminate your kitchen in the light that suits the occasion best with our new ambient light feature. With many of our extractor hoods incorporating energy-efficient LED lighting, creating a warm, inviting space is always part and parcel of a NEFF kitchen. With a welcoming ambience and quiet extraction, our hoods are designed with sociable kitchens in mind. With the power to ventilate even the most spacious open-plan living areas, odours and steam are effectively eliminated without extraction noise drowning out the conversation.

### THE LIGHT CREATED BY A NEFF EXTRACTOR HOOD WILL COMPLEMENT THE WHOLE KITCHEN LIGHTING SCHEME.

LED lighting not only provides bright, enduring illumination for your kitchen, but is also extremely energy efficient, consuming up to 85% less energy than an equivalent five year old model with halogen lights. Our LED lighting lasts for up to 40,000 hours.

### HALOGEN **SPOTLIGHTS**

Halogen lights are small, tidy and provide crisp colour and good illumination. Halogen bulbs are also long-lasting.

### **ADJUSTABLE LED** WHITE COLOUR **TEMPERATURE**

Perfect for setting the mood or matching to other kitchen lighting. Using the Home Connect App with selected models, you can adjust the white colour temperature between 2,700K - 5,000K.

### QUIETHOODS

#### That won't drown out the conversation

Silence is the gateway to little tales of food poetry. Have you heard the one about sizzling onions? Or the epic story about a searing steak? Our low-noise motor makes it possible to listen to your own kitchen story. Would you like to know the secret? It's audible relaxation that takes your creativity to new adventures.

#### **EFFICIENT DRIVE**

Most of our hoods are exceptionally quiet thanks to our brushless Efficient Drive motor. However, noise is also determined by the length and type of ducting used and the installation surroundings. To provide a more meaningful measure of noise specific to the appliance, we state Sound Power in dB(A) re 1pW. With this system, there are strict guidelines for measuring the noise level, enabling you to easily compare our range and to give a closer indication of likely noise levels once the hood is installed.

#### **NEFF SILENCE**

NEFF provides a range of ventilation solutions with our NEFF Silence function to reduce noise levels on demand with more control. Simply select this function to reduce the power level by a half level, offering more control over your extraction and noise levels in a busy kitchen.

#### **NOISE FOCUS**

All hoods undergo detailed acoustic testing and we even look at the frequencies of the sound waves to make sure any sound is as pleasurable to the human ear as possible. Then Go into NEFF SILENCE button to go between power levels either on the hood or HomeConnect.

# HOODS

### **EXTRACTION OR RECIRCULATION?**

The best way to remove steam and odours is to extract the air out of the room through ducting. Unfortunately, in apartments or where the hood is too far away from an outside wall, this may not be possible. In this case, the only alternative is to recirculate the air. Stale air is sucked through a grease filter, before being purified in a charcoal filter, and then pumped back into the kitchen via an opening in the hood.

#### Recirculation

#### Recirculating

Removes between 70-95% of odours depending on filter used. Requires changing of charcoal filter on a regular basis or a longer-lasting Regenerative filter for certain models can be used.

#### Ducted

Removes up to 98% of odours in an optimal installation. Requires planning of ducting (ducting to be sourced separately), however doesn't require a recirculation charcoal filter.

### USE THE FOLLOWING EQUATION TO CALCULATE YOUR EXTRACTION RATE:

Volume of kitchen (length x width x height) eg. 4m x 3m x 2.5m = 30m<sup>3</sup>

6 x volume in normal operation and 12 x volume in intensive operation.

Please note that these are recommended estimates only to be used as a guid ceiling height with 12 air changes per hour to match to an intensive extraction

### **IDENTIFY YOUR EXTRACTION RATE**

Your extractor needs to circulate the air in the room 6 times in normal operation, 12 times in intensive operation, per hour. Use the below to help identify the required extraction rate which can then be used to select the appropriate extractor.

|      |                  | and the second second                    | and the second second | A REAL PROPERTY  | and the second se | AT A CAN HAVE A REAL PROPERTY OF |

#### **REGENERATIVE RECIRCULATION FILTERS**

The new Regenerative Charcoal Filters give you a long lasting filter, thanks to a regenerative process using your oven, and can even be installed without a chimney piece if preferred. Benefit from up to 95% odour reduction when in recirculation mode.

### **RECIRCULATION FILTERS**

powerful odour reduction rates and performance benefits, our new regenerative filters can last up to 10 years and are regenerated through a heating process in the oven every 4 months.

CleanAir Plus and Regenerative filters not available for all styles of hood. Additional module may be required to house the filter. Images for example only, different filters may come in a different size and style.

### INSTALLATION

The following points should be observed for optimum ducted extraction results and low noise:

Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.

Avoid reducing the diameter or area of the ducting.

Use wide-angled pipe elbows, but keep the number used to a minimum.

Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.

### EASY MOUNTING SYSTEM

Thanks to an easy wall-mounting system, selected hoods can be installed quickly and securely by one person. Rotating offset 'cam' fixings make it possible for positional adjustments of up to 6mm, helping to get the hood level and stable. (Not available on all our hoods.)

We offer a range of recirculation filters that are available depending on the model of hood you choose. Featuring

Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.

Keep piping to a minimum – use the most direct route to an external outlet.

Make sure that there is an adequate supply of fresh air to replace the air ducting out of the kitchen, i.e. windows that can be opened, doors to adjacent rooms, air bricks. Problems with installation may occur if points 1-7 are not observed.

### Mix and match your perfect hob

NEFF worktop ventilation solutions mean that the hood is installed behind the hob, meaning they are effective at extracting kitchen smells and steam right where you are cooking. Their ease of installation and extracted or recirculation options mean that they can also be placed flexibly throughout your kitchen, integrating into your work surface for a sleek look.

The NEFF Remote Motor Installation Mounting Kit (Z92IDM9X0) frees up space under the worktop and provides the option to mount the motor up to 3 metres away from the appliance.

Image for illustrative purposes only. Ducting not supplied.

## COOKING FLEXIBILITY KNOWS NO LIMITS

The Downdraft hood faultlessly integrates into the kitchen design without any compromise, thanks to its space-saving, quiet, yet powerful, Inline motor installation option. The hood is complementary to our oven and hob matching design for an idyllic combination of performance and sophistication.

utomatically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. d according to EN61591 on largest pipe diameter. <sup>5</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>6</sup>From top of pan supports. Depending on the model, lating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

### CEILING **INSTALLATION HOODS**

#### The ideal space saving solution

Sleek, stylish and unobtrusive, our ceiling mounted hoods effectively extract steam and odours without taking up valuable kitchen space. Easy to use with a remote control, the grease filters can also simply be removed and cleaned in the dishwasher. Our Plug&Play recirculation only ceiling hoods are designed to complement the layout of your space and offer complete flexibility when designing your kitchen. With a high extraction rate, air is drawn in through a series of grease and charcoal filters and then recirculated back into the room without the need for ducting.

ally reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. Jing to EN61591 on largest pipe diameter. <sup>5</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>6</sup>From top of pan supports. Depending on the model, dour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

### ISLAND HOODS

### The ideal solution for contemporary kitchens

Our island hoods are a stunning way to showcase a central cooking and preparation space. Available with stylish flat glass and box designs, the range is designed to complement our gas, ceramic and induction hobs. With height adjustable chimney sections, there are options to suit all ceiling heights too.

utomatically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. ed according to EN61591 on largest pipe diameter. <sup>s</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>s</sup>From top of pan supports. Depending on the model, ulating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

### WALL INSTALLATION HOODS

### The focal point of any kitchen

Hoods installed on the wall can be used to create a design feature in themselves, adding a focal point to your kitchen while offering powerful extraction for all types of cooking. Choose from a range of styles to suit your kitchen design, including the new Creative Slim hoods or Angled Glass hoods with features such as Ambient Light that let you express yourself with colour, as well as your cooking. And if choosing to install in recirculation, the hood can be fitted without a chimney piece for a sleeker finish to your hood installation.

# **D96IKW1S0B** Premium Angled Chimney Hood (900mm width) N 90 $\sim$ Efficient Drive motor Front panel pulls out to Boost Position

utomatically reverts back to normal setting after intensive.<sup>2</sup>A type of recirculating kit is required if recirculating.<sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct ed according to EN61591 on largest pipe diameter. "Sound power measured according to EN60704-3 on largest pipe diameter. "From top of pan supports. Depending on the model, ulating odour filter kit "will consist of the following items: Charcoal filter, fiexible hose, air duct, fixing components, installation instructions.

A kitchen to create in

Why choose between style and effectiveness when you can have both? Our Creative Slim hood illuminates your space in ambient lighting while keeping the room free from steam and odours. With a climate controlled automatic system, your ventilation is tailored to your cooking as soon as you turn the hob on – ideal when you need your hands free.

r automatically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. ured according to EN61591 on largest pipe diameter. <sup>5</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>6</sup>From top of pan supports. Depending on the model, irculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

# BOX CHIMNEY HOODS

### The focal point of any kitchen

It's amazing when a steak is sizzling in your pan, and the smell is part of an exciting cooking experience. But there are some kitchen odours nobody is too fond of. Enter our quiet but powerful Box Chimney Hoods where fresh air is guaranteed.

ding to EN61591 on largest pipe diameter. <sup>5</sup>Sou odour filter kit' will consist of the following item

intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct . <sup>s</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>s</sup>From top of pan supports. Depending on the model, items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions

### **TELESCOPIC HOODS**

#### Always the right height

When you're cooking up a sumptuous meal, chances are, you're more focussed on what's inside the pots than what escapes them. Our telescopic hoods are well-trained in coping with steam and odours. They slide out when you need them, and can be pushed back, for a flush finish when you don't. With a lowering frame, the hood can disappear entirely from view. This compact, discreet set-up with subtle LED lighting has up to four highly capable speed settings. Any noise can be toned down further on demand with the Silence function, so nothing can spoil the kitchen conversation.

### VITAL SPACE-SAVING VENTILATION SOLUTION

Providing the ultimate space-saving solution, our first hidden hood beautifully complements flush, integrated kitchen designs. 350mm minimum cabinet depth required.

natically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. cording to EN61591 on largest pipe diameter. <sup>5</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>4</sup>From top of pan supports. Depending on the model, ng odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

#### **Room for inspiration**

A CARLEN AND A CARD AND A CARD

A great kitchen atmosphere is not just about the people you've invited or the meal you're cooking. A clear view to focus on your creations is a must, too. Our space-saving canopy hoods cleanse the air skilfully and quietly - allowing everyone to join the conversation. Another helpful idea: the metal filter cassettes are easily removable and dishwasher-safe.

## ROOM FOR INSPIRATION

#### D94XAF8N0B Canopy Hood (900mm width)

Adjustable glass visor

The N70 canopy hoods come in full 90cm and 60cm widths and are easy to install due to replacing the bottom of the cabinet. Thanks to their design, they make even more space for storage in your kitchen.

Additional accessories for a sleek look inside the cabinet: Z51IBN0N0 - Chimney extension 185-362mm Z51IBG0N0 - Chimney extension 120mm

### Great for masking smells

When all your friends sit around the table, just waiting for one of your treats to be served, you don't want steam or smoke disturbing the atmosphere. Our discreet integrated hoods work with three speeds to cleanse the kitchen air. While they do their job with a minimum of noise, LED lights shine a warm light on your bubbling pots and pans. Fitted between two kitchen cabinets, they hide behind a furniture door when you've finished cooking.

# D64MAC1X0B Integrated Hood (599mm width) N 30

# GREAT FOR ALL KITCHENS

ically reverts back to normal setting after intensive. <sup>2</sup>A type of recirculating kit is required if recirculating. <sup>3</sup>Air Flow and noise declarations made in line with CECED Code of Conduct. rding to EN61591 on largest pipe diameter. <sup>3</sup>Sound power measured according to EN60704-3 on largest pipe diameter. <sup>6</sup>From top of pan supports. Depending on the model, odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing component<u>s, installation instructions</u>.

# BEHIND THE DOOR ....

Whether it's washing dishes, lightening the laundry load or keeping your food as fresh as possible, NEFF have everything to make life easier. NEFF's integrated appliances do all the hard work behind the door so you don't have to. Working tirelessly and quietly in the background, you can enjoy getting creative in the kitchen with friends and family... carefree.

PRESH SAFE 夏0°C」 COOLING

We have a range of fridges and freezers so there is something for everyone. Whether it is a large American-style fridge freezer, or a built-in fridge freezer, we're confident that there is a model to suit. **Fresh Safe**– Keep ingredients fresher for longer. Herbs, fruits and vegetables stay crisp, vibrant and fresh retaining vital nutrients and vitamins and locking in flavour.

For more information on cooling installation options visit neff-home.com/uk/

A NEFF dishwasher is designed with creative cooks in mind. That means that even the most bubbled-over oven dishes, baked-on ramekins and caramelised grill pans will still come out beautifully clean.

**Chef 70°** – Extra cleaning power for creative cooks. With a hotter setting and a powerful spray, the Chef 70° programme is perfect for cleaning even the dirtiest pots, pans and cooking utensils. Items placed in the lower basket are subject to higher spray pressure, eliminating the need for soaking and effectively removing even the most stubborn areas.

### LAUNDRY

Our 3 types of models cover all your laundry needs: washing machines, washer dryer combination models and tumble dryers.

**Time Light** –The NEFF laundry range quietly washes, allowing you to multi-task while entertaining guests. The clever Time Light projects the remaining wash cycle onto your floor with no need to open the door to check on progress. Allowing you to keep one eye on your wash as well as your guests.

### REFRIGERATION

#### Leading the way in food storage to ensure the freshest and tastiest food

We're constantly working to improve our range of fridges and freezers so there's something for everyone. Whether it's a large American-style fridge freezer that can cope with the demands of a hungry family, or a fridge freezer that integrates seamlessly into the kitchen furniture, we're confident that there's a model to suit.

### THE COLLECTION

Choosing the right appliance to complement your kitchen and lifestyle can be challenging. To help you select the perfect kitchen companion, we've introduced easy-to-follow Collections based on product features, technology, design and simplicity. There's a Collection to suit every

| ollection to suit everyone.           | C. E. C.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

# COOL SOLUTIONS FOR EVERY COOK

### Combination and layout solutions for installing your cooling appliances

With so many kitchen styles to choose from, at NEFF we've catered for all spaces and lifestyles. With the option to build a cooling solution to your requirements, our installation options are designed to offer the ultimate flexibility. From side-by-side fridge and freezer installations to over-under stacked installations, it's easy to incorporate NEFF appliances into your overall kitchen design.

СМ 122

### SIDE-BY-SIDE INSTALLATION:

Our single door fridges and freezers are designed to sit parallel to one another in order to create a double door effect. By placing a left-hinged fridge and a right-hinged freezer (or vice versa) side by side you can easily browse fresh and frozen ingredients before getting creative in the kitchen. Smooth door opening is facilitated by a simple fixed or sliding hinge. Equally if you want to place a fridge in the kitchen and a freezer in the utility room, our appliances can be installed in a way which suits you.

### A STYLE FOR ALL FOOD LOVERS

#### Leading the way in food storage to ensure the freshest and tastiest food

Fresh, seasonal ingredients are a staple in any NEFF kitchen. That's why the right food storage is so important: all our models - whether it's a large American-style fridge freezer that can cope with the demands of a hungry family, or a side-by-side fridge freezer that integrates seamlessly into the kitchen furniture – give you the flexibility to keep your fruit, vegetables and herbs crisp and vibrant for longer.

#### **BUILT-IN FRIDGE/FREEZER**

KI6873FE0G

Built-in fridge freezer N 7

Designed to fit in a single housing unit, our range of fridge freezers include models from the tall larder style to more compact styles. All of our fridge freezers have a 4 star rating.

### AMERICAN-STYLE FRIDGE FREEZER

It's big, bold, and there's enough space for even the largest family's chilled and frozen food. You'll also find an ice and water dispenser to keep you cool all year round.

KA3923IE0G American-style fridge freezer N 70

### **BUILT-UNDER FRIDGE AND FREEZER**

Our integrated fridge with a four star freezer fits neatly under the work surface and provides a compact, flexible cooling solution for busy kitchens.

# ADVANTAGES HINGE TYPES

# OF DIFFERENT

more room for your food

# HINGES TO SUIT ALL KITCHEN DESIGNS

Our doors can be right-hinged or left-hinged in order to suit your kitchen design.

### FIXED HINGE AND SOFT CLOSE HINGE

The benefit of this type of hinge is that it carries more weight – ideal for kitchen cabinetry made from heavier hard wood. This hinge also allows the door to open at a wider angle, making the fridge cavity easily accessible. All NEFF doors close automatically when at an angle of approximately 15-20° and selected models have the benefit of Soft Close.

A fixed hinge offers you additional capacity in the refrigerator, leaving you

### SLIDING HINGE

Additional space is required on the inner side of the cabinet to make way for the door hinge.

#### SLIDING HINGE

Our sliding hinge feature sits between the appliance and the furniture door and is secured by a series of brackets. As you open the furniture door, the appliance door is also opened via the sliding bracket design.

### COOLING EXPLAINED

#### Food preservation features, functions and design explained

Cooking is all about new ideas and fresh inspiration – and our cooling appliances are no different. They are bursting with innovative features and functions to optimally store the food you love.

# DESIGN FEATURES

### UNIQUE TO NEFF, MAKING YOUR LIFE EVEN EASIER

Easy Clean Magnetic Door Seals

The magnetic door seals on all of our refrigeration range are removable, making them easy to clean and/or replace if necessary.

Find out more information on cooling features and installation solutions at neff-home .com/uk/

Wire Shelf Completely unique to NEFF, our nev Wire Shelf feature is ideal for securi storing jars and bottles stacked on

### Soft Close

With Soft Close, the fridge door closes automatically when open at an angle of 20° or less. With a soft closing mechanism, it's the ideal addition to

### Easy Lift Door Storage

Easily adjust door storage with just one hand. Combined with Easy Lift Shelves, your fridge space won't restrict your favourite foods and drink.

Anti-spill Trims Effectively hold up to a pint of liquid in case of accidental spillage. Food is protected below and the clean-up process is a little less messy.

Bottle Rack Always have a chilled bottle on standby for those impromptu get-togethers.

Easy Lift Shelf With Easy Lift shelving, it's possible t adjust shelves with just one hand – e when they're fully loaded. Perfect wh unloading shopping or introducing freshly prepared dishes to the fridge.

**Easy Access Shelf** The retractable glass shelf allows for easy loading and unloading as well as better access to your food. Ideal for putting the finishing touches to those delicate desserts.

Vario Shelf

Designed to offer complete flexibility in your fridge, sectioned glass shelves can simply be separated and slid underneath when not in use. Ideal for larger dishes, with space left over for a convenient condiments storage area at the back.

### OTHER FEATURES & FUNCTIONS

### **Multiple Cooling Systems**

Separate cooling circuits for independent temperature control, to prevent the transference of odours and/or humidity between the fridge and freezer cavities.

#### Multi Air Flow Cooling

Greatly improves the circulation of air around the fridge, regulating the temperature and humidity levels and eradicating condensation build up, so that your food stays fresher for longer.

### No Frost

No Frost freezers automatically react to any signs of frost so it never has a chance to build up. With a No Frost freezer air is blown from the back wall and circulates over food items. As a result, there is no condensation or build up of frost and food does not freeze together.

#### Low Frost

Low Frost improves performance and reduces frost build up in an energy efficient way. It also provides more storage space due to there being no internal evaporator and you may only need to defrost your freezer every 2-3 years

#### **Super Freeze**

Lowers the temperature for rapid freezing when adding fresh food.

### New Energy label for Fridge and Freezer Appliances

The procedure for determining the energy class is now more comprehensive. It takes into account the type of appliance, its operating principle, the room's temperature and the number and size of storage compartments. The rest of the elements on the new energy label basically remain the same. Energy consumption continues to be specified in kWh as an annual consumption (annum).

The label also provides information on the total volume of all refrigerator compartments and all freezer compartments, if any, and on noise emissions and the noise emission class.

### Intelligent Cooling

Uses a range of innovative sensors to calculate the quantity of food in the fridge with the outside temperature. The fridge then adjusts the internal cooling power accordingly.

#### **Super Cool**

Allows for the increase in temperature that occurs when fresh food is added. As soon as the food is cold, the fridge will readjust to the normal temperature.

#### Door Open

Door Open and high temperature alarm systems alert you if the door has been left open or a power cut has occurred. Ideal for mitigating food wastage.

### Eco Air Flow

#### **Eco Air Flow**

Our Eco Air Flow system treats your ingredients as lovingly as you picked them. Eco Air Flow circulates the air evenly in your fridge to keep flavours delicious under ideal cooling conditions.

### FRIDGE AND FREEZER APPLIANCES:

- 1 QR Code
- 2 Energy efficiency class
- 3 Energy consumption in kWh/ annum (measured under new standard conditions)
- 4 Total volume of all freezer compartments
- 5 Total volume of all refrigerator compartments
- 6 Noise emissions expressed in dB(A) re 1 pW and noise
- emission class

# NEW!

### STORING FOOD IN A COOLING APPLIANCE

#### Fresh, seasonal ingredients are a staple in any kitchen.

### OUR INNOVATIVE O'C FRESH SAFE PRESERVATION SYSTEM EXTENDS THE LIFE OF FOOD TIMES TO REDUCE WASTE.

### FreshSafe 🗋

Located in the coldest part of the fridge. the dedicated transparent drawer protects fruit and vegetables

### FreshSafe 🖂

Many vegetables, such as lettuce, need more humidity to preserve their freshness, guality and nutrients. With the FreshSafe 2 drawer you can set the optimum humidity level with a slider. Fruit and vegetables stay fresh for twice as long and retain their wholesomeness.

### FreshSafe යි

Two climate zones with different humidity levels and temperatures of nearly 0°C make ideal storage conditions and food stays fresh three times as long: the FreshSafe 3 humidity zone locks in vitamins and nutrients much longer. Fruit and vegetables stay firm and retain their flavour. The other FreshSafe 3 zone is ideal for storing fish, meat and hard cheese.

### WE'RE COMMITTED TO REDUCING FOOD WASTAGE

Did you know that around a third of the food we buy is thrown away?

The average family of four throws away £680 worth of food per year. At NEFF, we're keen to help you manage your costs by developing the most effective food preservation systems. FreshSafe is a 0°C compartment, independent from the fridge temperature, comprising two humidity zones. The dry section maintains 50% humidity to preserve meat and fish, while the moist zone, at 90% humidity, extends the life of vegetables, salad and fruit.

### FreshSense

Uses intelligent sensors to monitor the temperature within the fridge, the freezer and the room outside. This feature ensures that the appliance maintains an optimal storage climate independent of the surrounding ambient temperatures.

### EASY ACCESS TO YOUR ( FRESH INGREDIENTS

Access to the fresh safe drawers is easy. The telescopic FlexiRail<sup>®</sup> system allows the drawers to slide out fully for added convenience.

WE THROW AWAY 3.6 MILLION TONNES OF FOOD AND DRINK FROM OUR HOMES EVERY YEAR\*. AT NEFF WE'RE COMMITTED TO HELPING YOU REDUCE WASTAGE AND EFFECTIVELY MANAGE YOUR GROCERY COSTS.

WITH INNOVATIONS IN FOOD PRESERVATION, NEFF FRIDGES KEEP YOUR FAVOURITE INGREDIENTS AT THEIR BEST FOR LONGER.

vill depend on how the appliance is used and where it is located . Climate zone ST = designed to operate in ambient temperature of  $+10^{\circ}$ C to  $38^{\circ}$ Climate zone SN = designed to operate in ambient temperature of  $+10^{\circ}$ C to  $32^{\circ}$

### **BUILT-IN SINGLE DOOR** FRIDGES AND FREEZERS

All Charles and

### Plenty of space for family life

Slightly smaller in size, our 140cm and 122cm models are popular with busy family kitchens, offering plenty of storage space. While these fridges & freezers may have less storage space, they more than make up for this, thanks to a range of innovative features to maximise shelf space. With Vario Shelf allowing for taller items and a generous FreshSafe humidity controlled compartment, there's plenty of room for your favourite food and drinks.

## OUR DISHWASHERS SUIT YOUR COOKING STYLE

### FULL SIZE DISHWASHERS

Designed to be as flexible and accommodating as possible, our full-sized dishwashers have adjustable baskets and racks to hold large or awkward items, as well as a choice of wash cycles, from intensive to delicate.

#### SLIMLINE DISHWASHERS

Where space is an issue, our SlimLine model S875HKX20G is ideal. Just 45cm wide, it fits into the smallest of spaces, but still offers all the features of a full size model. It's surprisingly roomy and able to cope with nine place settings at a time.

#### VARIO HINGE MODELS VARIO HINGE

In addition to the two height sizes (81.5cm and 86.5cm), dishwashers with VarioHinge - S195HCX26G and S295HCX26G - are the perfect solution for installations with limited clearance between the bottom of the door and the plinth. VarioHinge allows the kitchen frontal to slide up the dishwasher door slightly, as it lowers, clearing the plinth to give you a flush and sleek look to your kitchen.

### FULLY INTEGRATED DISHWASHERS

INVISIBLE TO THE EYE. **POWERFUL ON YOUR DISHES** 

\*Please note this program does not sterilise.

Our fully integrated dishwashers are seamlessly tucked away into your kitchen and offer innovative programmes to take care of all your cookware. With settings for the most stubborn stains and intelligent care programmes for your most delicate glassware, we've created a cleaning solution for all your everyday cooking and dining utensils. Extra Hygiene introduces a final rinse at very high temperatures to fight bacteria - perfect for baby bottles\* or chopping boards.

White Emotion Light

GAP ILLUMINATION NOW ADDED TO VARIO HINGE MODELS

### SEMI-INTEGRATED DISHWASHERS

SLEEK EFFICIENCY

Providing easy access to a front control panel and tastefully integrating with your furniture, our semi-integrated dishwashers are a popular choice in kitchen design. Simple to use, your pots, pans, crockery, and glassware come out clean and dry, all just using 10.5L of water

### DISHWASHING FLEXIBILITY

#### The more flex you choose, the better space is used

Whether you have large sturdy pots or delicate glasses, the Flex basket system adapts to your crockery and utensils meaning the baskets can be adjusted to your needs and all dishes are left beautifully clean.

## FLEX BASKETS

Fitting casserole dishes, large pans, full dinner sets and tall-stem wine glasses into a dishwasher can be a challenge – especially when you're cleaning your most robust cookware alongside delicate items. Our Flex Baskets are designed to accommodate those bulkier items and provide an even, thorough clean. We have two options of basket flexibility to choose from:

Flex 1 – Features two foldable elements in the top and bottom basket providing the freedom to adapt loading of different items – including large dishes or any type of cookware. Place your tableware the way you want and enjoy shining

Flex 2 - Create custom space across all loading levels, featuring coloured touch points along with six foldable areas in the top rack and a further six in the bottom Anti-slip elements and stemware support within the top rack provide safe positioning for your glassware. Flex 2 baskets provide great flexibility with quick and easy loading solutions of glasses, cups, pots and pans.

### FLEX CUTLERY DRAWER Flex Cutlery Drawer

Imagine a flexible buddy in the top tier of your dishwasher - and now picture our Flex Cutlery Drawer. It handily clicks into place whenever you need a tailor-made place for your forks, knives, and kitchen utensils.

### RACK MATTIC RACK-MATIC

Rack-Matic allows the top basket to be raised or lowered into three different positions. With the option to adjust the basket even when fully loaded, those last minute wine glasses can still go in at the end of the night. The top basket can also run on an angle, using two different heights either side which helps moisture drain away, aiding the drying process.

# FLOOR PROJECTION DISPLAYS

#### Let there be light

Knowing when your dishwasher cycle is in action has never been easier, or looked cooler. Clearly lit on the floor of your kitchen, our innovative and stylish floor projection features indicate when the dishwasher is still working hard on your dishes, so you don't have to open and check. New Gap Illumination will help to keep you in the loop at all times. Soft side light will let you know when the dishwasher is running.

# TIME LIGHT

### Never interrupt a cycle again

Time Light projects the remaining time of the dishwasher cycle and other information onto the floor in front of your machine. Stylish, contemporary and practical, there's no risk of disrupting your wash. The end-of-cycle sound can also be turned off, handy for open-plan living.

# INFO LIGHT

### Let the floor do the talking

Info Light projects a red light on the floor below your dishwasher which indicates the machine is still running. Available across selected models, Info Light will stylishly project onto any kitchen floor.

### HOME CONNECT

#### Wash dishes, wherever you are

All of our dishwashers are now Wi-Fi-enabled, so you can manage your appliance via voice command or using the Home Connect app on your smart device. Our Easy Start feature means the dishwasher determines the best programme in three easy steps through asking a series of simple questions about your load, then all you have to do is tap start on your device. The dishwasher will notify you when you're getting low on salt and rinse, telling you how many washes you have left till you run out, and send you a reminder when you do. This ensures you don't forget to add them to your shopping list. Our Home Connect app also monitors how many tablets have been used and will let you know when they're running out. Better yet, your dishwasher can even put in an order for more using smart reorder via Amazon Alexa. Now that's easy cleaning!

# GAP ILLUMINATION

### A distinct light bar to keep you in the loop

Gap Illumination shines a soft white light on the side of the dishwasher to indicate the dishwasher is running. If you pause the cycle or open the door, the light will start blinking. This feature is available across Vario Hinge models.

> HOME CONNECT IS COMPATIBLE WITH AMAZON ALEXA AND GOOGL ASSISTANT

Home Connect

# **KEY FEATURES**

PROGRAMMI CHEF 70° CHEF 70°C

PERCENT.

### EXTRA CLEANING POWER FOR CREATIVE COOKS

With a hotter setting and a powerful spray, the Chef 70° programme is perfect for cleaning even the dirtiest pots, pans and cooking utensils. Items placed in the lower basket are subject to higher spray pressures, eliminating the need for soaking and effectively removing even the most stubborn stains.

# DOOR OPEN ASSIST

### The ideal choice for seamless kitchens

Door Open Assist is the perfect solution for anybody looking to achieve a sleek, handleless design in their kitchen. Simply press lightly on the front of the unit to open the dishwasher door. Ideal for a range of integrated designs, Door Open Assist is also a convenient addition to busy kitchens. Electronic child lock can be activated, creating a double push to open.

### Glass Care System GLASS CARE SYSTEM

### CARE FOR YOUR MOST DELICATE GLASSWARE

Your dishwasher has a thing for delicate glassware, so it fine-tunes the water hardness to protect your glassware with never-ending care. A combination of the Glass 40° programme and Extra Shine option will clean your items impeccably without worry. With the introduction of anti-slip surfaces, silicon inserts and supports within Flex 2 baskets your glassware has never been more protected.

A form of mineral, Zeolith has the ability to absorb moisture and turn it in to heat. The heat produced naturally by Zeolith is used during the drying cycle, ensuring that no additional energy is needed to dry your cookware. With the ability to absorb moisture, your glasses will come out steam free and will be cool enough to handle. Automatically activated by programmes with a drying phase, Zeolith regenerates itself and lasts a lifetime, so you don't have to maintain it.

### **DISHWASHER FUNCTIONS & PROGRAMMES**

All of our dishwashers come with a choice of programmes, from intensive wash cycles capable of tackling tough, burnt-on food, to delicate washes for glassware.

### FUNCTIONS & PROGRAMMES

### AQUA STOP

Protects inlet and outlet hoses from leakage. A safety valve prevents any more water from entering the dishwasher and overflowing – even when the machine is off.

#### Gap Illumination shines a soft white ght on the side of the dishwasher dicate the dishwasher is running. If you pause the cycle or open the door, the light will start blinking. This feature is available across Vario Hinge models

#### OPEN DRY

No need to manually open the door of your dishwasher to allow the load to cool off. Open Dry takes care of that by opening the door automatically during the drying phase.

### FAVOURITE

Choose a programme, option, or combination on your dishwasher and save it as "Favourite", either via your Home Connect app or directly on the dishwasher.

### TIME LIGHT

Time Light projects the remaining time as well as the ongoing process of the programme on any type of kitchen floor. Time Light is available for fully integrated dishwashers and washing machines.

### INFO LIGHT

Info Light projects a red light onto the floor that showcases clearly that this dishwasher is in operation. Info Light is available for fully integrated dishwashers.

### VARIO HINGE

Vario Hinge attaches your furniture front to the door of the fully integrated dishwasher, regardless of whether it's on the floor or in a high cabinet. Vario Hinge smoothly lifts the furniture front above the plinth and base.

#### SILENCE **₹**₽

you wish for peace and calm

EXTRA SPEED Depending on the selected

will resume

enjoy optimum cleaning and times faster.

### 1 HOUR 65°

party dishes for hours, simply load the dishwasher again This function cleans and dries more quality time with family and friends while enjoying food and tales using your favourite tableware.

### HEAT EXCHANGER

Ensures that the drying phase of programmes is energy efficient and glassware is fully protected by preventing extreme temperatures.

### AUTOMATIC PROGRAMMES

Take the worry out of selecting exactly the right programme and let the machine do it for you. Automatically changes settings to ensure you get the best clean for your load.

EMOTION LIGHT LED lights in the front edge light up the dishwasher cavity

Silence on demand' whenever select this option via the Home Connect app. On activation the cycle will pause for 30 minutes. You have the flexibility to restart the cycle at anytime if you wish, after 30 minutes the programme

programme you can reduce the running time of your dishwasher's programme to up to 66%. Make more of your quality time and drying results - while Extra Speed takes care of the load up to three

No need to stack your dinner or dishes in only 60 minutes. Spend

### EASY CLEAN

Give your dishwasher <u>a deep</u> clean with the new Easy Clean programme. Simply run the high temperature setting together with some dishwasher cleaner in an empty machine to remove limescale and grease from inside the cavity.

### EXTRA SHINE

By increasing the amount of water during the rinse cycle and extending the drying phase, water marks are prevented and the drying result is further improved.

### **POWER ZONE**

Activates higher wash temperatures and increases spray arm pressure in the bottom basket, while maintaining a more gentle wash in the top basket.

### EXTRA HYGIENE

Provides a hotter final rinse, with 70°C water for 10 minutes, to effectively cleanse items such as chopping boards and cooking utensils\*

### **10-YEAR, ANTI-RUST** WARRANTY

Due to advanced materials and manufacturing technologies, in addition to our standard appliance warranty, we're able to provide a free-of-charge warranty against the rustingthrough of the dishwasher's inner cavity.

### FULLY INTEGRATED DISHWASHERS

### Tough on pots and pans, gentle on glassware and crockery

Our fully integrated dishwashers are full of hidden talents and features such as Wi-Fi connectivity, Time Light, Vario Hinge, Aqua Stop and Door Open Assist. Zeolith® works with naturally-occurring minerals to dry your cookware and Chef 70° is a brilliant function to get rid of stubborn pan stains after a hard night's cooking. Time Light projects the cycle's remaining time left onto the floor for added convenience. Features like our Flex 2 Baskets and Flex Cutlery Drawers make our fully integrated dishwashers as adaptable as possible.

## FULLY INTEGRATED DISHWASHERS

#### Room to fit it all

Completely invisible behind your chosen cabinetry, it's incredibly quiet, yet packed with ideas to make cleaning as effortless and eco-friendly as possible. Our fully-integrated models are WiFi enabled, and offer flexibility to customise settings to your needs. Speed up your cycle at anytime or save your favourite programme and option combination with a single touch. The informative Info Light function projects a red light onto the floor when the dishwasher is still running, so you never need to interrupt a cycle. Chef 70° gets rid of the most stubborn stains plus features like our Flex 1 & Flex 2 baskets and Flex Cutlery Drawer make your dishwasher as adaptable as possible.

#### Time Light

All of our dishwashers have Aqua Stop water protection, detergent aware, Dosage Assist and a door lock as standard. All NEFF dishwashers are suitable for use with doors from 2.5kq-8.5kq apart from SlimLine S875HKX20G (2.5kq to 7.5kq) and VarioHinge models S195HCX26G and S295HCX26G (4.5kq to 11.0kq) if the correct door springs are installed.

nmend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long ftener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further ater pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to %" screwed joint. table as of April 2021. Subject to modification without prior notice.

## SEMI-INTEGRATED DISHWASHERS

5 5 2 6 2

#### Flexible solutions for your bulkiest cookware

Offering easy access to a front control panel and seamlessly blending in with your furniture, our semi-integrated dishwashers are a popular choice in kitchen design.

<sup>3</sup> We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/lire (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information. Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to %" screwed joint. Data valid in this table as of April 2021. Subject to modification without prior notice.

## SLIMLINE DISHWASHER

#### Now every kitchen can benefit from a dishwasher

Our SlimLine dishwasher is ideal for cooks who need the convenience of a dishwasher without impacting on valuable kitchen space. Incorporating a range of innovative NEFF features such as Chef 70°, Extra Speed, Info Light and Vario Hinge, a smaller dishwasher doesn't mean you have to sacrifice performance.

## LAUNDRY

#### Quality, performance and efficiency are standard on all our laundry appliances

A good laundry appliance should be reliable enough to provide perfect results again and again. We have three types of model to cover all your laundry needs: washing machines, washer dryer combination models and tumble dryers. All feature our signature innovations, designed to improve efficiency and, most importantly, to make life easier.

Our washing machines are so quiet it won't drown out your conversation. We have also added the innovative Time Light feature so you can see when your washing will be finished even when the furniture door is closed. A perfect solution for open plan kitchens. Featured on model W544BX1GB (shown).

## LAUNDRY APPLIANCE FEATURES

#### LESS IRONING

Reduces the creasing of clothes as the water is gently removed from the wash with a light interval spin at the end of the cycle.

#### TIME DELAY

Allows you to programme the machine up to 24 hours in advance to suit any schedule or to take advantage of off-peak electricity rates.

### TIME LIGHT

The time remaining of the wash cycle is clearly projected on to any floor surface. So you don't have to open the door to see when your washing will be finished. Perfect for open plan kitchens. Featured on model W544BX1GB.

#### FLEXI TIME

Cuts programme times by up to 30%. Simply select the cycle you wish to run and then select Flexi Time.

#### EXTRA RINSE OPTION

Available on almost every programme, it's especially helpful for sensitive skin.

#### INTELLIGENT WATER SYSTEM

Efficient washing is made simple with our built-in load sensor. With up to 256 load levels distinguished and a flow sensor for detecting the kind of textile, the amount of water used is tailored to your wash.

#### STAIN-REMOVAL PROGRAMME

Banish even the most stubborn stains with our stain-specific programmes. With dedicated settings for red wine spillages, tomato splashes and butter/oil residue, there's no need to worry about cooking-related stains.

#### DRUM CLEAN WITH REMINDER

Prevent odours and germs with our handy Drum Clean reminder. When the machine detects a consecutive number of low washing temperatures (<40°), you'll be prompted to start the Drum Clean programme.

Some features are relevant for freestanding models only. For full details please refer to the website.

#### **ANTI-VIBRATION SIDE PANELS**

Our new side panels increase stability and reduce vibrations during even the fastest spin cycle. With a 3-step system which absorbs motor vibrations, centres unbalanced laundry and compensates for vibrations on the side walls, you benefit from low noise washing with every load.

#### SENSOR DRYING

Continuously monitors the drying performance using sophisticated sensors to prevent overheating and over drying. The dryer stops automatically when the correct level of dryness is reached to deliver the finest fabric care and reduce ironing.

#### **ECO BAR / ECO BAR PLUS**

Know how much energy you are using with the new Eco Bar feature, available on selected freestanding appliances. The LED bar displays five possible consumption levels. With Eco Bar Plus, energy and water consumption is displayed, giving you an indication of resources used on your chosen programme and options. The fewer LEDs illuminated, the more energy you are saving

#### **AQUA STOP / AQUA SECURE PLUS**

Protects inlet hoses from leakage. A safety valve, prevents any more water from entering the washing machine.

#### **DRUM LIGHT**

The new drum interior LED light is a big help when unloading your fully-integrated NEFF built-in washing machine. It lights up the inside brightly enough so you'll never overlook another item of laundry.

#### **RELOAD FUNCTION**

If you need to add or remove an item after the programme has started, you can pause the cycle by pressing the Start/ Reload button. The machine will check whether you can open the door and, if so, it lets you. To resume operation, just press the Start/Reload button again.

## **INTEGRATED LAUNDRY**

#### Designed to blend seamlessly with the rest of your kitchen.

Discreet and unobtrusive, our built-in washing machines and washer dryers remain hidden behind cabinet doors in the kitchen, maintaining a clean and coordinated look.

## QUALITY PERFORMANCE AND EFFICIENCY

#### **W544BX1GB** Built-in Washing Machine

8kg capacity

Eco Silence Drive and Anti Vibration panels LED drum light

## ULTIMATE SPACE SAVING SOLUTION

Our machines are easy to fit, slotting in neatly between two units. A full height furniture door has to be fitted to the front of our built-in machines and can be hinged from the left or right, but remember, the porthole door on the machine cannot be changed around. A plinth, which is easy to remove or cut out (to allow access to the pump and vent) should be fitted across the bottom.

Not all options and programmes are shown, this is a guide, please refer to the website for mo details. <sup>1</sup>On an energy-efficiency class scale from A to G. <sup>2</sup>Energy consumption in kWh/100 operating cycles (using Eco 40-60 programme). <sup>3</sup>Water consumption in litres/operating cycle (using Eco 40-60 programme). <sup>4</sup>Duration of Eco 40-60 programme.<sup>3</sup>The specified value is rou

### Register my appliance

Total Excellence

Winner 2020

DHG Domestic

It is important that you register all your kitchen appliances to ensure that the manufacturer has full details in the event of an important product update. You can find out more about registering your appliances online at:

#### registermyappliance.org.uk

All NEFF appliances are supplied with a two-year manufacturer's warranty. Please call 0800 519 2115 (Republic of Ireland 01230 0344) to register your NEFF warranty and find out more about extending your cover.

Please be aware that the above telephone number is managed by Domestic & General Services Limited who administer the warranty registration process on our behalf

### ARRANGE A VISIT FROM A NEFF ENGINEER

NEFF home appliances are built to the highest standard, but if you do need a visit from a NEFF engineer, we are here to help. Our locally based engineers are employed and trained by NEFF, which gives them unrivaled knowledge and expertise to repair NEFF appliances.

In some areas we may use an approved service partner to carry out repairs on our NEFF appliances, where the repair process may vary.

You can easily book, and manage your engineer visit online at: neff-home.com/ uk/service/repair/book-a-repair-online or via our call centre (see contact details above). Republic of Ireland customers should call: 01450 2655.

Calls will be answered 24 hours a day, 7 days a week. Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

### ACCESSORIES AND CLEANING PRODUCTS

You can find everything you need for any appliance on the NEFF online store. It's here where you'll find our tested and approved cleaning and care products, along with other accessories ranging from a Glass Holder for your new dishwasher to a Teppan Yaki for your hob, or a new set of Telescopic Rails.

Shop online at: neff-home.com/uk/store

### ONLINE HELP AND PRODUCT ADVICE

Prefer to go online? You can visit our support content at: neff-home.com/uk/service/ support to quickly find the help you need. We cover questions about usage and maintenance of your appliance, as well as tips on getting started and installing your new appliances. You'll also be able to access your user manual at any time.

### GENUINE NEFF SPARE PARTS

NEFF keeps a comprehensive range of replacement spare parts for up to ten years. You can browse our exploded view diagrams on our store or speak to an advisor on the phone to help you locate and buy the spare parts you need.

## NEFF CUSTOMER SERVICE

Here at NEFF, we understand that although our kitchens and appliances are designed to cope with even the most exacting Cookaholics, sometimes you need to turn to us for help. Whether you need a visit from one of our engineers, some spare parts for your NEFF appliance or just some helpful advice, we're here to talk – around the clock\*.

### GIVE US A CALL ON 0344 892 8979

If you're in the Republic of Ireland, call us on (01) 450 2655

### VISIT OUR WEBSITE AT **NEFF-HOME.COM/UK** NEFF-HOME.COM/IE

We're available 7 days a week. Our specialist advisors are available Monday to Friday 8am to 6pm, Saturday 9am to 5pm and Sunday 9am to 4pm. Calls are charged at the basic rate, please check with your telephone service provider for exact charges. In some areas we may use an approved service partner and the process may vary for repairs carried out by our service partners.

Please note that due to the implications of COVID-19, our contact hours and service availability are subject to change. For the latest information and updates on our services please visit our COVID-19 Service Update page on: neff-home.com/uk/coronavirus. Republic of Ireland customers should visit: neff-home.com/ie/coronavirus.

\*Please note that after the working hours stated only a limited number of advisors are available.

#### **RECEIVE THE HIGHEST STANDARDS OF SERVICE FROM NEFF**

NEFF appliances are well-known for their quality and we believe that our customers deserve customer service to match. We provide expert repairs both inside and outside the manufacturer's warranty period and we can offer advice on choosing an appliance which will enhance your favourite dishes.

NEFF is a division of BSH Home Appliances Limited, a company registered in England and Wales under company registration number 01844007, with registered office at: Grand Union House, Old Wolverton Road, Wolverton, Milton Keynes, Buckinghamshire, MK12 5PT.
